The two former governments have been accused of not keeping people from seeing the blackboards in the primary, secondary and tertiary levels of education. The newly elected party that has taken power is promising to do so and says that its actions are in line with the country's basic political principles. It also says that it will continue to work for the people's welfare.

These self-reported behaviors were measured through four self-administered scales to assess (1) perceived drinking habits, (2) sexual behavior, (3) perceived stress, and (4) the level of self-rated psychological distress. In the self-administered drinking history, the respondents indicated in their answers the frequency of alcohol consumption in the previous 12 months and gave answers about the number of alcoholic drinks per day. In the self-rated stress, they indicated the frequency of experiencing stress in the previous 12 months. They indicated whether they had experienced any of the following symptoms in the previous 12 months: nervousness, irritability, difficulty sleeping, loss of appetite, and weight loss.
