Mathews, 2021-11-29 First Published in 1985 Examinations presents a balanced overview and commentary on all the main aspects of public examinations The key themes are examinations and their context historical political social and educational functions of examination how they work equity and fairness of the process and future of public examinations Recurring issues in the book are the tension between the need for common national standards and the need for diverse individuality and the conflict between competitive functions of examinations as instruments of selection and their descriptive function as reports on standards of performance The author argues that the main aspects of examinations are not given a prominent place in the training of teachers though public examinations have widespread impact on society This book will be an essential read for scholars and researchers of education higher education and also for administrators and policy makers **Parliamentary Papers** Great Britain. Ganten, D. Pfaff, 2012-12-06 **The administration of examinations for 15-19 year olds in England** Great Britain: Parliament: House of Commons: Education Committee, 2012-07-03 This report from the Education Committee looks at the administration of examinations for 15 19 year olds in England The Committee expresses serious concerns about incentives in the exam system and about competition on syllabus content Incentives in the system should be changed so the downward pressure through the competition of exam boards is mitigated The Committee considers a number of options to change incentives including i A single board This offers a simpler system with no risk of competition but the Committee believes the cost risk and disruption outweigh the benefits ii Franchising of subjects to exam boards This removes syllabus competition but again has downsides 3 Or the current system of multiple boards The Committee sees no benefit in

competition on syllabus content but the setting and marking of exams and associated administration if properly regulated could generate incentives and drive quality up offering value for money to schools and colleges The Committee also recommends the development of national syllabuses accredited by Ofqual The syllabuses would be developed by exam boards in conjunction with learned bodies and employer organisations and could therefore retain the benefits of competition on quality and the incentive for exam boards to innovate
