Discuss the use of digital storytelling in the teaching and learning of language and critically report on one journal article that investigates the use of digital storytelling in the language-learning context.

1. Introduction

Digital storytelling combines various types of multimedia – images, music, narration, text and video clips – to make a story that is appealing and interesting to a digital reader (EDUCAUSE Learning Initiative, 2007) and is increasingly used in teaching and learning (Afrilyasanti & Basthomi, 2011). Commented [A5]: Support your point of view with evidence from your reading.

Commented [c6]: Alert the reader’s interest by giving concise, relevant background information on the topic.

Commented [A7]: This is the thesis statement which highlights the student’s main position/line of argument in this paper.

Commented [A8]: This paper is written in report format. Use of numbered headings and sub-headings as well as subtopic paragraphs are all appropriate for report writing.

Commented [c9]: Headings form sign posts and assist the reader to focus on the most important content. These should match the information you provide in your introduction. The lecturer was happy to have headings in this piece of writing – to help clarify the ideas and break down the information into sections.

Commented [G10]: This is the start of the body of the essay. It should have a logical sequence.

Commented [c11]: Citation includes a page number because it refers to a direct quote.
