

Report on the BARNHOUSE EFFECT

By KURT VONNEGUT, JR.

Author of Slaughterhouse-Five, Breakfast at the Tasty, and The Sirens of Titan

I have been thinking a great deal lately about the Barnhouse Effect. It is a term I have never heard of before, but I have just learned that it is a very real thing. It is a kind of nuclear reaction that occurs when a person is exposed to a large amount of radiation. The person then becomes radioactive and can cause other people to become radioactive as well. This is a very dangerous situation, and it is one that we must be aware of. I have been thinking about this because I have just read a book about it. The book is called "The Barnhouse Effect" and it is written by a man named Barnhouse. He is a physicist and he has written a very interesting book about this phenomenon.
