**Painkillers** Victor B. Stolberg, 2016-03-14 This accessible easy to read book provides readers with different perspectives on the subject of painkillers examining their history production uses and dangers Many different drugs are effectively used as painkillers substances that greatly improve the quality of life for those who suffer from temporary or recurring pain This book presents an in depth overview of opiates opioids and other painkilling substances such as non steroidal anti inflammatory drugs NSAIDs that have been in use from ancient times up to the contemporary era It also addresses the risks of painkiller use their misuse and potential overdose concerns The latest in the Story of a Drug series and written by a subject expert who has published widely on drug use and pharmacology this book presents a brief review of the science of how different painkiller drugs work before covering these substances respective effects and applications the issues regarding the production distribution and regulation of painkiller drugs and research findings on painkiller use abuse patterns addiction and policy issues The easy to understand text presents scientifically accurate information that enables readers to better understand the key role of painkillers in our 21st century world *Drugs, Crime, and Justice* Larry K. Gaines, Janine Kremling, 2013-12-11 The twenty six articles in this edited volume provide perspective on the interrelated issues surrounding the use of drugs in society Although drugs have long been a social problem the importance of the issue and the involvement of the criminal justice system have varied across time Public concern has typically centered on illegal drugs but the drug issue today is even more complex given the impact of prescription drugs Exaggeration has been a constant theme in the history of public policy on drugs usually playing on public fear to demonize specific drugs and users Some drugs are more dangerous than others The variations in effects impact enforcement prevention and treatment If we are going to criminalize drugs and drug usage policies and penalties should be based on the relative dangerousness of a drug or class of drugs Policies can reduce harm create harm or both Our current drug policies attempt to reduce harm through law enforcement We arrest anyone involved in drug activities under the premise of protecting society These same policies however result in the incarceration of large numbers of people they are expensive they overburden the criminal justice system and they have lasting consequences for those caught up in the drug war no matter how minor their offenses Drug policies should be weighed carefully implementing those that result in the least amount of harm to society The editors have collected timely articles that provide perspective and a foundation for an informed approach to addressing problems associated with drug use
