Report On Welfare To Work Program For Women:

Poverty, Battered Women, and Work in U.S. Public Policy Lisa D. Brush, 2011-07-28 Drawing on longitudinal interviews government records and personal narratives feminist sociologist Lisa Brush examines the intersection of work welfare and battering Brush contrasts conventional wisdom with illuminating analyses of social change and social structures highlighting how race and class shape women's experiences with poverty and abuse and how domestic violence moves out of the home and follows women to work Brush's unique interview data on work related control abuse and sabotage together with administrative data on earnings welfare and restraining orders offer new empirical insights on the impact of work requirements and other post welfare rescission changes on the lives of low income and battered mothers Personal narratives provide first hand accounts of women's perceptions of the broad forces that shape the circumstances of their everyday lives their health their prospects their ambitions and their diagnoses of their world Deftly integrating the political and the personal the administrative and the narrative the economic and the emotional Brush underscores the vital need to reexamine ideas policies and practices meant to keep women safe and economically productive that instead trap women in poverty and abuse With her fresh approach to problems people often see as intractable Brush offers a new way of calculating the costs of battering for the policy makers and practitioners concerned with the well being of poor battered women and their families and communities

Recent analyses have revealed that single mothers are more likely to be working than in the past and that welfare receipt among poor families with women at the head has declined. Despite these trends, single mothers' net income has shown no increase, suggesting that full-time work may not be enough to eliminate poverty and welfare dependency among female-headed families. This book reports on several current trends in the economic status of female-headed families, providing an overview of federal programs and their effects, along with several useful charts based on Census Bureau information. The combination of statistics and evaluation makes for an important contribution to the study of initiatives to defeat poverty and income deficiencies in a significant part of the population. *Compendium of HHS Evaluations and Relevant Other Studies* HHS Policy Information Center (U.S.), 1990 **Monthly Bulletin** California State Board of Health, 1918 *Annual Report of the State Board of Health of South Carolina* South Carolina State Board of Health, 1923 **California Federation News**, 1925
