Mexico's Human Rights Crisis Alejandro Anaya-Muñoz,Barbara Frey,2019-01-11 Lawless elements are ascendant in Mexico as evidenced by the operations of criminal cartels engaged in human and drug trafficking often with the active support or acquiescence of government actors The sharp increase in the number of victims of homicide disappearances and torture over the past decade is unparalleled in the country s recent history According to editors Alejandro Anaya Mu oz and Barbara Frey the war on drugs launched in 2006 by President Felipe Calder n and the corrupting influence criminal organizations have on public institutions have empowered both state and nonstate actors to operate with impunity Impunity they argue is the root cause that has enabled a human rights crisis to flourish creating a climate of generalized violence that

is carried out condoned or ignored by the state and precluding any hope for justice Mexico's Human Rights Crisis offers a broad survey of the current human rights issues that plague Mexico Essays focus on the human rights consequences that flow directly from the ongoing war on drugs in the country including violence aimed specifically at women and the impunity that characterizes the government's activities Contributors address the violation of the human rights of migrants in both Mexico and the United States and cover the domestic and transnational elements and processes that shape the current human rights crisis from the state of Mexico's democracy to the influence of rulings by the Inter American Court of Human Rights on the decisions of Mexico's National Supreme Court of Justice Given the scope the contemporaneity and the gravity of Mexico's human rights crisis the recommendations made in the book by the editors and contributors to curb the violence could not be more urgent Contributors Alejandro Anaya Mu oz Karina Ansolabehere Ariadna Est vez Barbara Frey Janice Gallagher Rodrigo Guti rrez Rivas Susan Gzesh Sandra Hincapi Catalina P rez Correa Laura Rubio D az Leal Natalia Saltalamacchia Carlos Silva Forn Regina Tam s Javier Trevi o Rangel Daniel V zquez Benjamin James Waddell Fraud on the Elderly United States. Remittance Markets in Africa Sanket Mohapatra,Dilip Ratha,2011-01-01 Remittances sent by African migrants have become an important source of external finance for countries in the Sub Saharan African region In many African countries these flows are larger than foreign direct investment and portfolio debt and equity flows In some cases they are similar in size to official aid from multilateral and bilateral donors Remittance markets in Africa however remain less developed than other regions The share of informal or unrecorded remittances is among the highest for Sub Saharan African countries Remittance costs tend to be significantly higher in Africa both for sending remittances from outside the region and for within Africa South South remittance corridors At the same time the remittance landscape in Africa is rapidly changing with the introduction of new remittance technologies in particular mobile money transfers and branchless banking This book presents findings of surveys of remittance service providers conducted in eight Sub Saharan African countries and in three key destination countries It looks at issues relating to costs competition innovation and regulation and discusses policy options for leveraging remittances for development in Africa

Organized Crime and Illicit Trade Virginia Comolli,2018-03-24 Unlike much of the existing literature on organised crime this book is less focused on the problem per se as it is on understanding its implications The latter especially in fragile and conflict regions amount to strategic challenges for the state Whereas most commentators would agree that criminal activities are harmful this volume addresses the questions of how for whom and controversially are they always harmful The volume is authored by experts with multi year experience analysing criminal and other non state activities They do so through different lenses conflict and security development and technology engaging academics practitioners and policy makers They offer a comprehensive integrated response to the challenges of transnational organised crime beyond traditional law enforcement driven recommendations
