

Research Paper: Peer Review Sheet

- **Each student must complete one of these sheets for at least two students.**

Please read your peer's paper and respond to the following questions.

1. Identify (in writing) the thesis of the paper. Is it complete—does it include the topic, the writer's position and the argument he/she will use to develop this paper?
2. Look at the topic sentences of each paragraph. Are they logical and directly connect to the thesis?
3. Is the argument backed up with evidence both textual and from outside sources? What does the writer need to do to improve his/her argument?
4. Review each source in the essay. Does each source support the thesis? If not, what is missing? Could the source and argument be better connected? How?
5. Do the paragraphs logically follow each other or would the paper and its argument be stronger if certain paragraphs were rearranged in the paper? If the paper needs to be reorganized, number each paragraph and give the author the new order. Tell the writer why the new order is needed.
6. Should any part of the paper be eliminated because it does not fit with the thesis?
7. Are there any sources that need to be cited? Are the in-text citations done according to the MLA style of documentation? Circle all incorrect citations.
8. Identify (in your feedback comments) any rough transitions. (Rough transitions are those lines that DO NOT pull each connecting idea or source together with the following sentence or paragraph.)
