

Statement of Purpose Guidelines

General Guidelines	Page 1
Research Statement of Purpose	Page 2

General Guidelines

1) Before you start writing, be clear in your own mind as to the objectives of writing this statement

A statement of purpose is generally used to convince the admissions committee that you are suitable for the course applied for. Clarify why you think you are suitable for this course, why you would do well in it, and how your previous experiences are relevant and strengthen your position as an applicant. You should also consider your own skills, your strengths and weakness, your motivations and your future plans.

Always keep in mind the purpose of the statement of purpose while writing it, making sure that no superfluous information is included. Remember that while you may wish to reinforce certain parts of your CV, overdoing on repetition is not going to be very useful.

Also keep in mind your readers and consider what they are looking for and how you think you fit in.

2) Draft a Table of Content for your Statement

Consolidate your thoughts into specific sub-topics. The following are typical areas that need to be addressed:

- Your motivations behind your application
- Your reasons for choosing the course that you've chosen
- How you think you are prepared for undertaking the course (you can mention here not only academic preparations, but also any extracurricular activities that have given you skills and knowledge that will be useful for the course)
- Your reasons for choosing the institution
- What are your plans after your study and how does doing this course fit in these plans

If there are any inconsistencies in your records or examination results, you may write a couple of lines to justify yourself. Remember to follow up any potentially negative points with positive statements of your abilities and strengths.
