Ensuring Digital Accessibility through Process and Policy Jonathan Lazar, Daniel F. Goldstein, Anne Taylor, 2015-06-03 Ensuring Digital Accessibility through Process and Policy provides readers with a must have resource to digital accessibility from both a technical and policy perspective Inaccessible digital interfaces and content often lead to forms of societal discrimination that may be illegal under various laws This book is unique in that it provides a multi disciplinary understanding of digital accessibility The book discusses the history of accessible computing an understanding of why digital accessibility is socially and legally important and provides both technical details interface standards evaluation methods and legal details laws lawsuits and regulations The book provides real world examples throughout highlighting organizations that are doing an effective job with providing equal access to digital information for people with disabilities This isn't a book strictly about interface design nor is it a book strictly about law For people who are charged with implementing accessible technology and content this book will serve as a one stop guide to understanding digital accessibility offering an overview of current laws regulations technical standards evaluation techniques as well as best practices and suggestions for implementing solutions and monitoring for compliance

This combination of skills from the three authors law technical and research with experience in both corporate government and educational settings is unique to this book and does not exist in any other book about any aspect of IT accessibility The authors combination of skills marks a unique and valuable perspective and provides insider knowledge on current best practices corporate policies and technical instructions Together we can ensure that the world of digital information is open to all users Learn about the societal and organizational benefits of making information technology accessible for people with disabilities Understand the interface guidelines accessibility evaluation methods and compliance monitoring techniques needed to ensure accessible content and technology Understand the various laws and regulations that require accessible technology Learn from case studies of organizations that are successfully implementing accessibility in their technologies and digital content

Secrecy and Methods in Security Research Marieke De Goede,Esmé Bosma,Polly Pallister-Wilkins,2019-08-13 This book analyses the challenges of secrecy in security research and develops a set of methods to navigate encircle and work with secrecy How can researchers navigate secrecy in their fieldwork when they encounter confidential material closed off quarters or bureaucratic rebuffs This is a particular challenge for researchers in the security field which is by nature secretive and difficult to access This book creatively assesses and analyses the ways in which secretcies operate in security research The collection sets out new understandings of secrecy and shows how secrecy itself can be made productive to research analysis It offers students PhD researchers and senior scholars a rich toolkit of methods and best practice examples for ethically appropriate ways of navigating secrecy It pays attention to the balance between confidentiality and academic freedom and integrity The chapters draw on the rich qualitative fieldwork experiences of the contributors who did research at a diversity of sites for example at a former atomic weapons research facility inside deportation units in conflict zones in everyday security landscapes in virtual spaces and at borders bureaucracies and banks The book will be of interest to students of research methods critical security studies and International Relations in general The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Navigating Misinformation Katrin Hartwig,2025-07-18 Informed navigation of misinformation on social media constitutes a major challenge The field of Human Computer Interaction HCI suggests digital misinformation interventions as user centered countermeasures This book clusters 1 existing misinformation interventions within a taxonomy encompassing designs interaction types and timings The book demonstrates that current research mostly addresses higher educated participants and targets Twitter X and Facebook It highlights trends toward comprehensible interventions in contrast to top down approaches The findings informed 2 the design implementation and evaluation of simulated apps for TikTok voice messages and Twitter X as indicator based interventions Therefore 3 the book identified misinformation indicators for various modalities that were perceived as comprehensible The book empirically demonstrates that 4 indicator based interventions are positively received due to their

transparency However they also come with challenges such as users blind trust and lack of realistic assessments of biases This research outlines chances and implications for future research **At the Edge of AI** Libuše Hannah

Veprek,2024-08-02 How are human computation systems developed in the field of citizen science to achieve what neither humans nor computers can do alone Through multiple perspectives and methods Libuse Hannah Veprek examines the imagination of these assemblages their creation and everyday negotiation in the interplay of various actors and play science entanglements at the edge of AI Focusing on their human technology relations this ethnographic study shows how these formations are marked by intraversions as they change with technological advancements and the actors goals motivations and practices This work contributes to the constructive and critical ethnographic engagement with human AI assemblages in the making Usability research for interpreter-centred technology: The case study of SmarTerp Francesca Maria

Frittella,2023-01-05 Technological advancement is reshaping the ways in which language interpreters operate This poses existential challenges to the profession but also offers new opportunities This books moves from the design of the computer assisted interpreting tool SmarTerp as a case study of impact driven interpreting technology research It demonstrates how usability testing was used to achieve an interpreter centred design By contextualising the case study within the past and current developments of translation and interpreting technology research this book seeks to inform and inspire a redefinition of the conceptualisation of interpreting technology research not just as a tool to understand change but to drive it into a sustainable and human direction *Proceedings of International Conference on Recent Advancement on Computer and Communication* Basant Tiwari,Vivek Tiwari,Kinkar Chandra Das,Durgesh Kumar Mishra,Jagdish C. Computer-assisted simultaneous interpreting: A cognitive-experimental study on terminology Bianca Prandi, 2023-02-10 The present work explores computer assisted simultaneous interpreting CASI from a primarily cognitive perspective Despite concerns over the potentially negative impact of computer assisted interpreting CAI tools on interpreters cognitive load CL this hypothesis remains untested Previous research is restricted to the evaluation of the CASI product and a methodology for the process oriented evaluation of CASI and the empirical evidence for its cognitive modelling are missing Overcoming these limitations appears essential to advance CAI research particularly to foster a deeper understanding of the cognitive aspects of CAI through a validated research methodology and to determine the feasibility of the integration of CAI tools into the interpreting process This book tests and validates a methodology for the combined

exploration of the product and process of CASI Quantitative and qualitative data were collected during an eyetracking experiment at the Translation glossary queries ear voice span inter cluster pause duration time to first fixation average fixation duration and fixation time qualitative questionnaire responses The findings provide insights into the effects of CAI tools on CL and attention allocation in interpreter CAI tool interaction during simultaneous interpreting As this is the first study on in process CAI tool use with a markedly cognitive orientation it entails significant implications for the methodological development of CAI research and the design of future studies on cognitive aspects of CASI while raising additional questions in need of further investigation

Math for Security Daniel Reilly, 2023-10-24 Use applied math to map fire stations develop facial recognition software solve the art gallery problem and more in this hands on real world infosec book Explore the intersection of mathematics and computer security with this engaging and accessible guide Math for Security will equip you with essential tools to tackle complex security problems head on All you need are some basic programming skills Once you've set up your development environment and reviewed the necessary Python syntax and math notation in the early chapters you'll dive deep into practical applications leveraging the power of math to analyze networks optimize resource distribution and much more In the book's final chapters you'll take your projects from proof of concepts to viable applications and explore options for delivering them to end users As you work through various security scenarios you'll Employ packet analysis and graph theory to detect data exfiltration attempts in a network Predict potential targets and find weaknesses in social networks with Monte Carlo simulations Use basic geometry and OpenCell data to triangulate a phone's location without GPS Apply computational geometry to Voronoi diagrams for use in emergency service planning Train a facial recognition system with machine learning for real time identity verification Use spatial analysis to distribute physical security features effectively in an art gallery Whether you're an aspiring security professional a social network analyst or an innovator seeking to create cutting edge security solutions this book will empower you to solve complex problems with precision and confidence Embrace the intricate world of math as your secret weapon in computer security Covers Python 3 x

Selling Digital Music, Formatting Culture Jeremy Wade Morris, 2015-09-01 Selling Digital Music Formatting Culture documents the transition of recorded music on CDs to music as digital files on computers More than two decades after the first digital music files began circulating in online archives and playing through new software media players we have yet to fully internalize the cultural and aesthetic consequences of these shifts Tracing the emergence of what Jeremy Wade Morris calls the digital music commodity Selling Digital Music Formatting Culture considers how a conflicted assemblage of technologies users and industries helped reformat popular music's meanings and uses Through case studies of five key technologies Winamp metadata Napster iTunes and cloud computing this book explores how music listeners gradually came to understand computers and digital files as suitable replacements for their stereos and CD Morris connects industrial production popular culture technology and commerce in a narrative involving the aesthetics of music and computers and the labor of producers

and everyday users as well as the value that listeners make and take from digital objects and cultural goods Above all Selling Digital Music Formatting Culture is a sounding out of music s encounters with the interfaces metadata and algorithms of digital culture and of why the shifting form of the music commodity matters for the music and other media we love
