International Research Handbook on Values Education and Student Wellbeing Terence Lovat, Ron Toomey, Neville Clement, 2010-08-05 Informed by the most up to date research from around the world as well as examples of good practice this handbook analyzes values education in the context of a range of school based measures associated with student wellbeing These include social emotional moral and spiritual growth elements that seem to be present where intellectual advancement and academic achievement are being maximized This text comes as values education widens in scope from being concerned with morality ethics civics and citizenship to a broader definition synonymous with a holistic approach to education in general This expanded purview is frequently described as pedagogy relating to values and wellbeing This contemporary understanding of values education or values and wellbeing pedagogy fits well with recent neuroscience research This has shown that notions of cognition or intellect are far more intertwined with social and emotional growth than earlier educational paradigms have allowed for In other words the best laid plans about the technical aspects of pedagogy are bound to fail unless the growth of the whole person social emotional moral spiritual and intellectual is the pedagogical target Teachers and educationalists will find that this handbook provides evidence culled from both research and practice of the beneficial effects of such a values and wellbeing pedagogy

Leveraging Social Capital in Systemic Education Reform Ian R. Haslam, Myint Swe Khine, 2016-08-18 Much has been written of late about the need to reform school systems across the world In like manner there have been many attempts to change school systems for the better but without a great deal of success This in part has much to do with the inertia in school systems and the nature of the

work The professional isolation of teachers from one another in schools is no excuse but it is a key factor in the development of system wide professional capital This book explores the importance of school leadership and the use of digital media to develop social capital in schools Particular examples of school reforms that focused on developing professional capital with varying degrees of success are to be seen in the UAE in reforms to the Australian middle school and in attempts to reform the Community College in the USA Throughout the book there are three powerful ideas associated with successful large scale reforms First there are the structural elements that all successful school systems have in common including revised curriculum standards a reliable assessment system technical skills of teachers and school leaders a comprehensive data system rewards and remuneration of workforce and policy documents to support change Second strategic imperatives such as the singular focus on teaching and learning for student success the need to build workforce capacity in schools the need to ensure system wide implementation of reforms and the importance of collaboration and team building Third the systematic development of professional learning communities and teacher leadership will increase social capital in schools which will ensure student success This book looks at overcoming the inertia to school reform in education systems caused by structural deficiencies strategic shortfalls and implementation procedures
