

Addressing Gun Violence: The Need for Stronger Gun Control

4 pages | 976 words

Over the past few years, the United States has witnessed a series of tragic incidents related to gun violence. These events have raised important questions about how such tragedies can be prevented. One key solution is the implementation of stricter gun regulations, which have the potential to reduce the number of shootings and gun-related deaths in the country. By limiting access to firearms for individuals with criminal records, mental illnesses, or those in situations where it poses a safety hazard, we can take significant steps towards curbing gun violence.

The High Stakes: Gun Ownership in the United States

The United States boasts the highest gun ownership rate in the world, particularly in terms of small arms, which are commonly found in civilian hands. Shockingly, some of the most influential figures in American history, including Presidents John F. Kennedy, Abraham Lincoln, and civil rights leader Martin Luther King Jr., fell victim to assassinations perpetrated by civilians with firearms (Doeden 26). These incidents were carried out by individuals who, on the surface, appeared to be ordinary citizens. However, the absence of stringent laws and background checks allowed these individuals, including those with criminal intent or mental instability, to acquire deadly weapons, resulting in unnecessary loss of life. The issue of gun control has been a subject of political debate since the founding of the nation. Merely a few years after the birth of the United States, New York politician Rufus King voiced concerns about arming frontier settlers for their defense, fearing that they might turn these arms against the newly formed nation (qtd. in Doeden 17). The debates surrounding gun control, encompassing political, ethical, and constitutional dimensions, have persisted for over two centuries and continue to shape the nation's policies.

Linking Gun Control to Public Safety

The absence of robust gun regulation laws in the United States poses a significant threat to the safety of its citizens. In December 2012, a lone gunman carried out a shooting spree, resulting in the tragic deaths of 20 first-graders and six staff members at Sandy Hook Elementary School in Newtown, Connecticut. The shooter was armed with two semi-automatic handguns and an assault rifle (Bagne). In the aftermath of the incident, there was a surge in gun sales, a reaction that does not align with the expected outcome. The idea that stockpiling firearms equates to neighborhood safety is deeply flawed and raises concerns. The path to neighborhood safety does not involve saturating communities with firearms. If such a mindset prevails among the American populace, urgent action is required. Gun regulations can provide people with a sense of security in their daily lives, ensuring the well-being of themselves and their families. The importance of exercising caution when granting individuals access to firearms cannot be overstated. By preventing the sale of guns in situations where they pose potential life-threatening risks, such as households with children or individuals with histories of violent behavior, the likelihood of firearm-related incidents can be significantly reduced.

Kole,2025-10-14 In this unsettling investigation into white evangelicals fusion of the gospel and guns veteran journalist William J Kole exposes how some Christians are standing in the way of reasonable restrictions on firearms and how it makes us all less safe On the evening that the bass player on his worship team casually showed him his handgun the author s world shifted In that moment Kole who was the AP s New England bureau chief when a gunman massacred twenty six people at Sandy Hook Elementary knew he had to figure out what was going on Why were white evangelicals more likely than other Americans to own a weapon What made them treat the Second Amendment as if it were God breathed And how did his own faith rooted in Jesus s call to turn the other cheek get hijacked In the pages of *In Guns We Trust* Kole looks at the unholy alliance between white evangelicals guns and politics Writing in the tradition of Tim Alberta and Kristin Kobes du Mez he

takes us into sanctuaries where worshippers raise hands and pack heat to a rural church that does outreach through target practice with assault rifles and into the lucrative gun making industry in which evangelicals play an outsized role He introduces us to global Christians who can't imagine owning firearms and dissidents in the US who are working for change including activists beating guns into garden tools and nuns who bought company stock so they could sue a gun manufacturer Our nation is awash in more guns than citizens With meticulous research humanizing interviews and immersive narrative Kole pulls back the curtain on the locked and loaded Christianity that got us here Ignoring gun toting believers Kole argues means the violence will continue But when intentional conversation and faithful resistance bear fruit peace may yet prevail
