The progressive hard rock band Rush has never been as popular as it is now A documentary film about the band Rush Beyond the Lighted Stage which was released in the summer of 2010 has been universally well received They had a cameo in the movie I Love You Man Their seven part song 2112 was included in a version of Guitar Hero released in 2010 The group even appeared on The Colbert Report And now this a book about Rush written for a general audience and geared towards issues concerning popular culture and philosophy There has been a recent explosion of Rush onto the popular culture front and how ironic for a band that has spent the early days of their career on the outside of mainstream popularity Even legendary trios such as Led Zeppelin Cream and The Police don t enjoy the commitment and devotion that Rush s fans lavish on Alex Geddy and Neil In part this is because Rush is equally devoted to its fans Since their first album in 1974 they have released 18 additional albums and toured the world following nearly every release Today when other 70s bands have either broken up or become nostalgia acts Rush continues to sell out arenas and amphitheatres and sell albums to date Rush has sold over 40 million albums They are ranked fourth after The Beatles The Rolling Stones and Aerosmith for the most consecutive gold or platinum albums by a rock band Rush s success is also due to its intellectual approach to music and sound The concept album 2112 made Rush a world class band and cemented its reputation as the thinking person s progressive rock trio Rush s interest in political philosophy mind control the nature of free will of individuality and our relationship to machines makes Rush a band that matters and which speaks to its fans directly and honestly like no other Lyricist Niel Peart has even built a following by writing books both about his motorcycle travels and about the tragic death of his daughter which have only furthered the respect Rush s fans have for arguably rock s greatest drummer and lyricist Fiercely independent of trends Rush has maintained a clear mission and purpose throughout their career With a unique sound best described as the Rush sound the band has been able to blend thought provoking lyrics and music for almost four decades The Rush style of music can trigger the unusual combination of air drumming air guitar singing along and fist pumping just as much as it can thoughtful reflection and deep thinking making Rush The Thinking Man s Band Rush and Philosophy does not set out to sway the public s opinion nor is it an awkward gushing of how much the authors love Rush Rush and Philosophy is a fascinating look at the music and lyrics of the band setting out to address thought provoking questions For example elements of philosophical thinking from the likes of Jean Paul Sartre Ayn Rand and Plato can be found in Peart s lyrics does this make Peart a disciple of philosophy In what ways has technology influenced the band through the decades Can there be too much technology for a power trio Can listening to Rush s music and lyrics lead listeners to think more clearly responsibly and happily Is the band s music a pleasant distraction from the singing of Geddy Lee In what ways is Rush Canadian How can a band that has been referred to as right wing also criticize big government religion and imperialism Rush and Philosophy is written by an assortment of philosophers and scholars with eclectic and diverse backgrounds who love Rush s music and who get the

meaning and importance of it They discuss Rush with the enthusiasm of fans and the seriousness of college professors The book will be a must read for the many fans who have long known that Rush deserves as much respect as the ideas concepts and puzzles about human existence they write and compose music about **The Words and Music of Frank Zappa** Kelly

publications is more prolific now than it ever was As the band recedes into the mystic fog of 20th century history we get more and more documentation about their music their love lives their personalities and their finances I wanted to try to make sense of it by reviewing the best and the worst of the Beatles tomes as they stand side by side in bookstores everywhere I spent 40 years reading about them knowing that one day I would share my accumulated knowledge with the fans in

Alan,2017-04-04 An insider s tour of rock through 50 memorable concerts **The Beatles** , **Radiohead** , From Soul to Hip Hop Tom Perchard,2017-07-05 The essays contained in this volume address some of the most visible durable and influential of African American musical styles as they developed from the mid 1960s into the 21st century Soul funk pop R B and hip hop practices are explored both singly and in their many convergences and in writings that have often become regarded as landmarks in black musical scholarship These works employ a wide range of methodologies and taken together

they show the themes and concerns of academic black musical study developing over three decades While much of the writing here is focused on music and musicians in the United States the book also documents important and emergent trends in the study of these styles as they have spread across the world The volume maintains the original publication format and pagination of each essay making for easy and accurate cross reference and citation Tom Perchard s introduction gives a detailed overview of the book s contents and of the field as a whole situating the present essays in a longer and wider tradition of African American music studies In bringing together and contextualising works that are always valuable but sometimes difficult to access the volume forms an excellent introductory resource for university music students and researchers

Turn on Your Mind Jim DeRogatis, 2003-01-01 Book Turn On Your Mind Four Decades of Great Psychedelic Rock is a history and critical examination of rock s most inventive genre Whether or not psychedelic drugs played a role and as many musicians say they ve used them as not psychedelic rock has consistently charted brave new worlds that exist only in the space between the headphones The history books tell us the music s high point was the Haight Ashbury scene of 1967 but the genre didn t start in San Francisco and its evolution didn t end with the Summer of Love A line can be drawn from the hypnotic drones of the Velvet Underground to the disorienting swirl of My Bloody Valentine from the artful experiments of the Beatles Revolver to the flowing otherworldly samples of rappers P M Dawn from the dementia of the 13th Floor Elevators to the grungy lunacy of the Flaming Lips and from the sounds and sights at Ken Kesey s 60s Acid Tests to those at present day raves Turn On Your Mind is an attempt to connect the dots from the very first groups who turned on tuned in and dropped out to such new millennial practitioners as Wilco the Elephant 6 bands Moby the Super Furry Animals and the so called stoner rock and ork pop scenes
