Fletcher, 2019-10-30 This second volume of The Grammar of Criminal Law addresses international criminal law and its importance for future international cooperation The emphasis is on the concepts that provide the essential building blocks for all systems of criminal law **Autopsy of a Crime Lab** Brandon

Garrett, 2022-03 This book exposes the dangerously imperfect forensic evidence that we rely on for criminal convictions That s not my fingerprint your honor said the defendant after FBI experts reported a 100 percent identification The FBI was wrong It is shocking how often they are Autopsy of a Crime Lab is the first book to catalog the sources of error and the faulty science behind a range of well known forensic evidence from fingerprints and firearms to forensic algorithms In this devastating forensic takedown noted legal expert Brandon L Garrett poses the questions that should be asked in courtrooms every day Where are the studies that validate the basic premises of widely accepted techniques such as fingerprinting How can experts testify with 100 percent certainty about a fingerprint when there is no such thing as a 100 percent match Where

is the quality control at the crime scenes and in the laboratories Should we so readily adopt powerful new technologies like facial recognition software and rapid DNA machines And why have judges been so reluctant to consider the weaknesses of so many long accepted methods Taking us into the lives of the wrongfully convicted or nearly convicted into crime labs rocked by scandal and onto the front lines of promising reform efforts driven by professionals and researchers alike Autopsy of a Crime Lab illustrates the persistence and perniciousness of shaky science and its well meaning practitioners

Rempson,2020-11-19 Rempson takes issue with those who lay the plight of African Americans on racism not seeing it today as a major obstacle to black progress Rather he traces the origin back to what he terms the African American Garden of Eden In it W E B Dubois outlasted Booker T Washington and fathered a tradition which Rempson argues has produced a victim identity and an emphasis on the system rather than the self Only black males offer a way out he declares because it is entirely our black males who are keeping us down and curtailing our progress in contrast to black females who are doing OK They are plagued by what Rempson calls the African American Male School Adaptability Crisis AMSAC Their academic performance ranks at the bottom alone below black female students and below white Asian and Hispanic male students In large urban areas their high school dropout rate is 59 percent and nationally they lag behind in college attendance and graduation rates The outcome Rempson argues is dysfunctionality and the existence of hedonistic norms which hinder family and community stability But while black males are the problem Rempson contends it is nevertheless only they who can solve it because research and experience show that it takes males to bring up and change other males Though intended for everyone he therefore writes his book to his fellow advantaged black males and makes a passionate plea for them to step up and with the help of black females and of the nation take the lead As their guide he has formulated eight propositions Arrived at through an examination of impressively extensive data from numerous sources and disciplines they are a marked departure from the customary Most strikingly delicate matters such as those which pertain to intelligence quotient IQ and culture are openly confronted and dealt with But Rempson writes unless confronted we will not solve our problems Nor he continues can we solve them unless we cut the umbilical cord to white America We have no right to expect it to be our savior nor are we justified in perceiving it as our oppressor Forcefully and finely written Rempson s book is a singular and courageous contribution Alone his eight propositions make it a worthy read
