Bekiashev, V.V.

Serebriakov, 2012-12-06 In the last few years the quantity of books and papers on the political economic and legal problems of the exploration and use of the sea and marine resources has considerably increased But the status and activities of international organizations related to maritime shipping fisheries scientific research in the World Ocean and the protection of the marine environment have not yet as a whole been represented in the scientific and reference literature It would be fair though to mention that some general information on marine international organizations may be found in the Yearbook of International Organizations Brussels 1979 in Annotated Acronyms and Abbreviations of Marine Science Related International Organizations U S Department of Commerce 1976 and in the UN Annotated Directory of Intergovernmental Organizations Concerned with Ocean Affairs 1976 Voluminous information on organizations engaged in problems of the exploration and use of the sea is given in International Marine Organizations by the well known Polish scientists Lopuski and Symonides 1978 Meanwhile the increasing volume of practical work related to the participation of governmental and scientific bodies as well as individual scientists and specialists in these organizations the necessity of long term planning in this field and the perspectives of the development of these organizations make necessary a special publication depicting the structure and many sided activities of such international bodies This book is the first one in which the most complete information on the main marine international organizations is presented **Floating Structures** N.
