Productivity lost
13% (PTO)

For our team a 10% loss in productivity in a given month represents one FTE. This loss is built into our planning and is expected as part of the generous leave policy at the XXXXX. The data presented here is a reminder that, by design our team is always producing at the reduced level of a team with one less member and all estimates for staffing and scheduling must consider this.

The Service Desk work force (previously diversity) changed due to the onboarding of an SDA working out of the XXXX office. This hire successfully completed the contract to hire term with excellent results and is an outstanding addition to my team.

SURVEY RESULTS

With a 6% return rate and 66 unique results, the Service Desk received very positive responses. Even so, we missed all targets by 3%.

January saw the first efforts of the Service Desk Survey Response Team. This team has one function: QA of all survey scores below the median. This month we investigated the following.

{14907} Reports an "unresolved" printer issue that continually deletes his printer mapping. Follow up needed.

{14911} When she approached an SDA she was told "I don't do walk ups" as the SDA walked away. Counseling session held with SDA, apologies provided.
