Report Writing For Recruiting A Hrm:

South African Human Resource Management Ben Swanepoel, 2003 *South African Human Resource Management* focuses on the knowledge and skills that managers at all levels need. The authors integrate contemporary international research and implementation with a South African perspective.

A Global Guide to Human Resource Management Thomas Klikauer, 2022-06-17 *A Global Guide to Human Resource Management* is a concise HRM introductory text offering a uniquely non region specific approach to people management in international business organisations. The book presents an alternative to standard managerial approaches reflecting the perspectives of multiple stakeholders: workers, trade unions, states and governments, NGOs. It critically evaluates HRM in practice and in so doing enables students to make effective decisions in their own practice wherever their careers take them. Its accessibility and concision make it well suited to short courses for non HRM and non business specialists. This text covers all major introductory topics for non specialists, introducing the concept and purpose of HRM through recruitment, people skills, designing work, promoting health, rewarding success and successful and ethical people management. This edition includes a new chapter on green HRM. Rich with pedagogical features, the book includes five case studies per chapter to connect theory with practice. It is also supported with a range of instructor materials including online guest lectures, general discussion questions, a glossary, an index and online documentaries that explain how to manage people. It is essential reading for students interested in Human Resources and Personnel Management, Organisational Behaviour and Development and Workplace Culture.

Managing People in Organizations Thomas Klikauer, 2018-10-06 This new and engaging core textbook offers a unique line manager perspective that presents students with HRM topics and issues that they will be confronted with once they enter the world of work in a managerial role. It is a concise text that focuses on providing students with all they need to know to equip them with a comprehensive understanding of the role the non HR manager plays in the day to day running of an organization. The author's deep understanding and wide ranging knowledge of the subject matter means that the text is firmly founded on the latest research while the case studies, topical and international examples and experiential exercises that form a fundamental part of the book ensure that theory is always clearly applied to real world practice. This text is an essential companion for MBA and postgraduate students who are studying modules on Human Resource Management or Managing People but who are non HRM specialists and do not require the exhaustive detail found in other HRM texts. It is also suited for use alongside upper level undergraduate modules on these topics on mainstream business degrees.
