

Composing A Chicago Style Research Paper Outline

An outline is like a map that guides you and your thoughts in an organized manner from the introduction to the conclusion. Below is an example of what the outline may look like for a Chicago style research paper. If you follow these guidelines, you will successfully create your outline which in turn will be the foundation for a paper.

Key questions to answer in order to build out your outline:

- What is your claim (thesis statement)?
- What reasons support it?
- What evidence supports those reasons?
- How do you respond to objections and alternative views?
- How are your reasons relevant to your claim?

Outline Structure

- State your claim or choose your thesis statement - Your outline must begin with your thesis statement. Everything in your outline should relate to this thesis statement.
- Roman numerals are used for all of your major points. Each Roman numeral represents a paragraph.
- The evidence (e.g., scenes, events, lines, etc., from the creative work and text) that you have found to support your main points should all begin with capital letters. These ideas that begin with capital letters should be indented one space past the Roman numerals.
- Depending on how many categories you need to support each of your ideas will depend on how you indicate them on your paper.

This is an example of what the outline might look like:

(DO NOT PUT YOUR NAME ON YOUR OUTLINE, PEER REVIEWS WILL BE ANONYMOUS)
