Douglas,2011-03-01 This book is not intended to be a deep dive on security programming reporting configuration etc but
more of a high level overview on salesforce com Force com development tools methodology and other resources We will not
cover all aspects of salesforce com We wrote this book to hopefully become an invaluable resource for anyone new or

inexperienced with the Force.com platform For new administrators and developers coming on to the platform we see a gaping hole in existing reference books This book is not intended for end users or advanced developers This book is for people somewhere in the middle let's say a business analyst or a new Java or .NET developer We would like this to be the first book you pick up after your boss walks in and says Let's take a look at Salesforce.com and see if we can build some applications in the cloud This book contains the information that we wish we had when we started developing applications on Force.com
