Personalism Revisited ,2021-11-08 This book presents selected addresses presented before the Personalist Discussion Group meetings held in conjunction with the annual meetings of The American Philosophical Association Eastern Division It includes the central ideas of American Personalistic Idealism developed during the twentieth century its major criticisms and recent developments by philosophers who are either Personalistic Idealists or sympathetic to the position **Marriages of Mobile County, Alabama, 1813-1855** Clinton P. G. Fichte,2012-02-01 Considered by some to be his most important text this series of lectures given by Johann Gottlieb Fichte 1762 1814 at his home in Berlin in 1804 is widely regarded as the most perspicuous presentation of his fundamental philosophy Now available in English this translation provides in striking and original language Fichte s exploration of the transcendental foundations of experience and knowing in ways that go beyond Kant and Reinhold and charts a promising novel pathway for German Idealism Through a close examination of this work one can see that Fichte s thought is much more than a way station between Kant and Hegel thus making the case for Fichte s independent philosophical importance The text is divided into two parts a doctrine of truth or reason and a doctrine of appearance A central feature of the text is its performative dimension Philosophy for Fichte is something we enact rather than any discursively expressible object of awareness a philosophical truth is not expressible as a set of propositions but is a spontaneous inwardly occurring realization Therefore he always regards the expression of philosophy in words as strategic aiming to ignite philosophy s essentially inward process and to arouse the event of philosophical insight The new translation contains a German English glossary and an extensive introduction and notes by the translator **Catalog of Copyright Entries.
