Reading Specialists and Literacy Coaches in the Real World Brenda A. Shearer, DeBorah A. Carr, Mary Ellen Vogt, 2018-07-23 Now more than ever the roles and responsibilities of today's literacy professionals are expanding. Many recent developments require a closer look at the changing careers of reading specialists, coaches, and administrators, leading to an emphasis on increased collaboration and coaching integration of standards and student improvement initiatives. Both scholarly and practical, *Reading Specialists and Literacy Coaches in the Real World* provides the support and guidance both literacy and content area teachers need. The learning goals and outcomes in each chapter are aligned with ILA's Standards for the Preparation of Literacy Professionals 2017, providing opportunities for group inquiry and new perspectives on professional learning. The authors examine the historical, political, and social forces that shape evidence-based practice and incorporate significant developments in intervention, assessment, and adolescent literacy. Their impact on instruction and the needs of students are studied in conjunction with RtI, MTSS, progress monitoring, and differentiation. Instructional technologies related to twenty-first-century literacies, updated information about effective academic language instruction for English learners, and a moral imperative for fostering equity, social justice, and global perspectives. The Fourth Edition also provides Resource Materials to support the text, giving it a great deal of flexibility to explore projects for portfolios and self-assessment. In the real world, as learners among learners, literacy professionals use their experiences and voices for advocacy to help prepare students for success in their lives and careers.

Literacy Assessment and Intervention for Classroom Teachers Beverly A. DeVries, 2023-04-25 The Sixth Edition of this comprehensive resource helps future and practicing teachers recognize and assess literacy problems while providing practical, effective intervention strategies to help every student succeed. DeVries thoroughly explores all major components of literacy, offering an overview of pertinent research, suggested methods and tools for diagnosis and assessment, intervention strategies and activities, and technology applications to increase students' skills. Substantively updated to reflect the needs of teachers in increasingly diverse classrooms, the Sixth Edition addresses scaffolding for English language learners and the importance of using technology and online resources. It presents appropriate instructional strategies and tailored teaching ideas to help both teachers and their students. The valuable appendices feature assessment tools, instructions, and visuals for creating and implementing the book's more than 150 instructional strategies and activities, plus other resources. New to the Sixth Edition: Up to date and in line with national, state, and district literacy standards, this edition covers the latest shifts in teaching and the evolution of these standards. New material on equity and inclusive literacy instruction, understanding the science of reading, using technology effectively, and reading and writing informational and narrative texts. New intervention strategies and activities are featured in all chapters and highlight a stronger technology component. Revamped companion website with additional tools, videos, resources, and examples of teachers using assessment strategies.
