

Science Focus 9 - Biological Diversity Review ANSWERS

Topic 1 - Biological Diversity and Survival

1. What does the term **biological diversity** refer to? *It refers to the number and variety of organisms found within a specified geographic region*
2. What is the difference between **abiotic** and **biotic**? *** Please refer to your notes and/or textbook for this answer*
3. Explain the difference between **structural** and **behavioral** adaptations with examples of each.
Structural adaptations refer to a physical structure that allows the organism a better chance of survival. Example: Spikes, scales, fur, etc.
Behavioral adaptations refer to a behavior that allows the organism a better chance of survival. Example: Migration, hibernation, etc.
4. What is the value of **variation**? *Variation is the key to genetic diversity which helps contribute to the survival of living things by producing populations that have a lot of variation.*
5. Example: *If there was a particularly long cold winter, perhaps only those grizzlies with especially thick coats would survive the winter, but those with thinner coats might not. So the grizzly population's variation (genetic diversity) would allow at least some of the individuals of the grizzly population to survive changing environmental conditions.*
6. Explain the arrangement of species. (**Individual, Population, Community, Ecosystem**) *** Please refer to your notes and/or textbook for this answer*
7. Explain the difference between **variation in a species** and **variation between species**. *Variability in a species describes the differences among various individuals of the same species (i.e. Freckles, brown hair, birth marks). Variability between species describes the differences between individuals of different species (i.e. Lions vs. Horses).*
8. What is the **7 Level Classification System** used by scientists? (name each of the 7 levels) *** Please refer to your notes and/or textbook for this answer*
9. What makes a "species" unique? *The ability to reproduce only with other members of that same species; sharing similar appearances/traits.*
