Advanced Applications of Network Analysis in Marketing Science Chinmay Kakatkar, 2018-02-09 The world today is becoming a highly connected place Firms consumers and the devices they use are increasingly part of a complex global network of connected entities These networks represent a gold mine for marketing scholars that may be interested in developing a better understanding of consumer behavior and for practitioners who are keen to discover new ways of gaining and retaining customers This cumulative dissertation focuses on the use of network analysis to generate and analyze novel data in marketing The work moves beyond the scope of traditional social network analysis to consider networks composed of different types of nodes at varying levels of granularity The key aim is to demonstrate that network analysis can be used to investigate novel explanatory and outcome variables that hold contextual meaning and can deepen our understanding of the research question at hand Essay 1 develops a predictive method based on product networks to identify customer projects in a retail setting Essays 2 and 3 show the value of network analysis in new product development by recasting product ideas as networks of their constituent features Essay 4 leverages network thinking to enable novel analyses of the fragmented and anonymized event data that will be generated in abundance by the Internet of Things Ultimately the essays showcase a selection of advanced applications of network analysis in marketing science that are arguably of value to scholars as well as practitioners and likely to gain in relevance in the future

The Spectacle of the Growth of Knowledge and Swift's Satires on Science

Beat Affentranger, 2000 This is a revisionist study of seventeenth and eighteenth century satires on science with an emphasis on the writings of Jonathan Swift and to a lesser degree Samuel Butler and other satirists To say as some literary commentators do that the satirists attacked only pseudo scientists who failed to employ the empirical method properly is to beg a crucial question how could the satirists possibly have distinguished the genuine scientist from the crank By a failsafe set of Baconian principles perhaps No the matter is more complicated I read the satiric literature on early modern science against a totally different understanding of what science is how it came into being and how it developed Satire has a decided advantage over scientific discourse It can rely on common sense scientific discourse often cannot There

is always a counter intuitive element in the genuinely new New knowledge is in some ways always at odds with received assumptions of what is possible reasonable or probable Satire on science I suggest can be seen as a systematic exploitation of that gap of plausibility Natural philosophers of the late seventeenth and early eighteenth century were keenly aware of their discursive disadvantage and at times even hesitated to publish their material They feared the satirists and the wits who they knew would find it easy to debunk their work on commonsense grounds But commonsense and laughter are unreliable yardsticks for measuring scientific merit Ironically the satirists and the natural philosophers shared some of the most fundamental epistemological assumptions of early English empiricism for instance the stereotypical Baconian assumption that knowledge about nature would come to us unambiguously once the mind was freed from preconception and bias It is an assumption about scientific method that is decidedly hostile towards speculative hypothesising Indeed the motto of the day was not bold speculation and learning from error but avoiding error at all costs Yet in practice error or what appeared to be erroneous was of course frequent for science is an essentially speculative enterprise Natural philosophers of the early modern period however were embarrassed by their failures and tried to explain them away The satirists on the other hand could prey on these mistakes and conclude that the work of the natural philosophers was purely speculative The reason for this rigid anti speculative epistemological stance I argue was a religious one having to do with the conception of nature as a divine book that could be read like Scripture This conflation of the epistemological and the theological is especially obvious in Swift In both his satirical and non satirical writings he is obsessed with proposing proper standards of interpretation and with criticising those whom he thought had corrupted these standards Dissenters and religious enthusiasts are taken to task for their misreading of Scripture for their corrupt religious doctrine which they erroneously claim to be based on Scripture and reason The natural philosophers are accused of some similar hermeneutic sin only they have committed their interpretive transgressions against the proper interpretive standard of the book of nature Where the natural philosophers claim to have found a new more accurate way of reading the book of nature Swift I argue sees only mis readings Rhetorically Swift s satires on religious dissent perpetuate the typically Tory High Church insinuation of sectarian and heretical sexual promiscuity In his satires on science Swift makes the same insinuation with respect to natural philosophers most vividly so in *A Tale of a Tub* and the flying island of Laputa The study concludes with a fresh look at Swift s rational horses in part four of *Gulliver s Travels*

New Church Essays on Science, Philosophy and Religion ,1854 English Mechanic and Mirror of Science ,1869 **The American Journal of Science** ,1924 *(Post)Critical Methodologies: The Science Possible After the Critiques* Patti Lather,2017-02-03

In the World Library of Educationalists series international experts themselves compile career long collections of what they judge to be their finest pieces extracts from books key articles salient research findings major theoretical and practical contributions so the world can read them in a single manageable volume Readers will be able to follow the themes and strands and see how their work contributes to the development of the field Post Critical

Methodologies forms a chronology through the texts and concepts that span Patti Lather's career Examining post critical feminist and poststructural theories Lather's work is organized into thematic sections that span her 35 years of study in this field These sections include original contributions formed from Lather's feminism and critical theory background They contain her most cited works on feminist research and pedagogy and form a collection of both early and recent writings on the post and post post with a focus on critical policy studies and the future of post qualitative work With a focus on the implications for qualitative inquiry given the call for scientifically based research in education this compelling overview moves through Lather's progressive thoughts on bridging the gap between quantitative and qualitative research in education and provides a unique commentary on some of the most important issues in higher education over the last 30 years This compilation of Lather's contribution to educational thinking will prove compelling reading to all those engaged in student learning in higher education worldwide

OPEN BOOK OF THE LION-HEARTED Andy Linburgh, 2023-06-25 Open Book of the lion hearted is the title of the book The opening statement is validated many times with incident example and often forgiving magnanimity in what is clearly a Vincentian literary keepsake to which Vincentians of every origin race and position can relate to As the opening quote suggests the traits of perseverance

and integrity set in an often troubled depiction of Caribbean life are balanced with a sense of humour and dignified clarity spiced with specific details of life culture history sociology spanning five decades It also offers much insight into the medical profession right down to terminology and examples here in the Caribbean from SVG to Cuba I have seldom read a literary work abounding with as much relevant Caribbean Vincentian detail as in this book Colin King Journals first published in the Searchlight Newspaper
