

APA Format

APA format is often used for research papers, especially in the social sciences. This is an important style to know for college papers!

Font

There are many acceptable fonts for APA format.

Sans serif fonts: 11-point Calibri, 11-point Arial, or 10-point Lucida Sans

Serif fonts: 12-point Times New Roman, 11-point Georgia, or (10-point) Computer Modern

Note: Your paper should be double-spaced regardless of font.

Title Page

Your title page should be center justified, and it should include the title of your paper, your name, your department affiliation and school's name, the class number and title, your professor's name, and the date. The title of your paper should be bolded, and there should be a space between the title and your name. The examples to the right offer a template, showing what should be included in your title page, and an example of an APA title page.

Title of Your Paper

Your Name

Department affiliation, Name of School

Class and Title

Professor's Name

Date Date

Header

A header is the top margin of the page, and this often includes the title of the work, the author's name, and/or the page number. For APA student papers, you only need the page number, right justified in the header. Your professor may wish for you to include your name or your paper title in your header, but only the page number is required for APA student papers.

APA Paper Title

Your Name

Faculty and Professor, University of Miami

1000 University Blvd

1000 University Blvd

1000 University Blvd

Internal Citations

Internal citations are used in academic writing to indicate what information comes from which sources. There are two types of internal citations: parenthetical and narrative.

Here is an example of a parenthetical internal citation:

"Many professors require or prefer APA format (Vandal et al., 2020, p.12)."

OR, you may use a narrative citation, like so:

"According to Vandal et al. (2020), many professors require or prefer APA format."

Internal citations may vary based on the type of source you are referencing and how many authors contributed. For most resources, you should include the author(s) last name(s), the year of publication, and the page(s) you are referencing—separated by commas, like so: (Vandal, 2020, pg. 6). If your source has two authors, you should include both surnames, like so (Vandal & Smith, 2020, pg. 6-9). If your source has two or more authors, you may include the first surname followed by "et al.", like so: (Vandal et al., 2020, pg. 6-12). Narrative citations will follow the same conventions for surnames.

For narrative citations, you do not need to include page number(s). For parenthetical citations, include page numbers if the source has them. Resources like journals and books will usually have page numbers, but many online resources do not. If your resource does not have page numbers, you do not need to include them. For films, just include the producer, the director, and the year. For lectures, include the lecturer's first initial, last name, and the date of the lecture.

Examples:

Film: (Vandal & Johnson, 2020).

Lecture: (J. Vandal, lecture, January 1, 2020).

How to Write Psychology Research Reports & Essays Bruce Findlay,2014-09-01 How to Write Psychology Research Reports and Essays 7e is endorsed by the Australian Psychological Society and is a useful reference to the strict guidelines required by the APS and the APA American Psychological Association styles A student who grasps these concepts and learns the conventions will have a sound basis for presenting research in a professional manner and writing well argued essays so that the later step of writing for publication should be an easier one to take

Statistics for Evidence-Based Practice in Nursing MyoungJin Kim,Caroline Mallory,Teresa Valerio,2020-12-09 Statistics for Evidence Based Practice in Nursing Third Edition teaches graduate students and professional nurses statistics in a readable user friendly manner

Research In Psychology C. James Goodwin,2009-11-02

The sixth edition provides psychologists with insight into the essential nature of experimental psychology and a solid grounding in its methods and practices. It has been updated to help them develop research ideas, hypotheses, and design studies. In addition, they will find out how to carry them out, analyze results, and draw reasoned conclusions from them. The chapters have also been updated with the important new developments in research methodologies and fascinating examples from recent studies to provide psychologists with the most up-to-date information in the field.

How to Teach a Course in Research Methods for Psychology Students Ross A. Seligman, 2020-04-13 This book is a step-by-step guide for instructors on how to teach a psychology research methods course at the undergraduate or graduate level. It provides various approaches for teaching the course, including lecture topics, difficult concepts for students, sample labs, test questions, syllabus guides, and policies, as well as a detailed description of the requirements for the final experimental paper. This book is also supplemented with anecdotes from the author's years of experience teaching research methods classes. Chapters in this book include information on how to deliver more effective lectures, issues you may encounter with students, examples of weekly labs, tips for teaching research methods online, and much more. This book is targeted towards the undergraduate or graduate professor who has either not yet taught research methods or who wants to improve his or her course. Using step-by-step directions, any teacher will be able to follow the guidelines found in this book that will help them succeed.

How to Teach a Course in Research Methods for Psychology Students is a valuable resource for anyone teaching a quantitative research methods course at the college or university level.

Research Methods in Psychology Paul G. Nestor, Russell K. Schutt, 2018-10-05 The authors are proud sponsors of the 2020 SAGE Keith Roberts Teaching Innovations Award, enabling graduate students and early career faculty to attend the annual ASA pre-conference teaching and learning workshop. *Research Methods in Psychology: Investigating Human Behavior* draws on fascinating stories to illustrate the entire research process within a unifying conceptual framework. Bestselling authors Paul G. Nestor and Russell K. Schutt present a clear and comprehensive introduction to the logic and techniques of research methods in psychology by employing a unique combination of two distinct yet complementary pedagogical techniques. First, chapters designed for experiential, hands-on studies put the student in the roles of researcher, participant, and consumer to bring concepts to life. Second, the findings of cognitive science guide the text in a way that is most conducive to learning. This novel approach serves as an effective way to make the world of psychological research fun and rewarding for students, in addition to allowing them to gain the foundational knowledge they need to design, conduct, and present research.

Research Methods, Statistics, and Applications Kathryn A. Adams, Eva K. McGuire, 2022-01-07 *Research Methods, Statistics, and Applications* by Kathryn A. Adams and Eva K. McGuire is designed to give students the experience of being a researcher by combining the interrelated concepts of research methods and statistics to better explain how the research process incorporates both elements. Employing a conversational tone throughout, coupled with an emphasis on decision making, this best-selling text will spark students' interest in conducting research and improve

their ability to critically analyze research in their daily lives The Third Edition includes a new chapter on measurement to better highlight its critical importance updates for the 7th edition of the Publication Manual of the American Psychological Association new examples related to social justice additional sections on qualitative research methods and more thorough integration of research ethics information and tips throughout each chapter

Research Methods for the Behavioral Sciences Gregory J. Privitera, 2022-07-07 The Updated Third Edition has been fully revised for the seventh edition of the Publication Manual of the American Psychological Association 2020 both in the APA style sections within content and the references The language within the text has been updated to be as inclusive as possible regarding all aspects of identity The APA sections on style paper preparation and ethics have been updated and the text itself has been formatted in the 7th edition style to better reflect the latest style guidance Both comprehensive and clear Research Methods for the Behavioral Sciences Third Edition author Gregory J Privitera employs a problem focused approach to introduce research methods A conversational writing tone speaks to learners directly empowering students to view research methods as something they are capable of understanding and applying Within each chapter students draw conclusions by following the scientific process To do enable this Privitera fully integrates the research methods decision tree from choosing a research design to choosing an appropriate statistic to encourage students to select the most appropriate methodology for the research question they are seeking to answer Greg Privitera covers the full scope of methodologies from non experimental to quasi experimental to experimental in a straightforward unbiased manner

An Introduction to Statistics Kieth A. Carlson, Jennifer R. Winquist, 2017-01-17 The Second Edition takes a unique active approach to teaching and learning introductory statistics that allows students to discover and correct their misunderstandings as chapters progress rather than at their conclusion Empirically developed self correcting activities reinforce and expand on fundamental concepts targeting and holding students attention Based on contemporary memory research this learner centered approach leads to better long term retention through active engagement while generating explanations Along with carefully placed reading questions this edition includes learning objectives realistic research scenarios practice problems self test questions problem sets and practice tests to help students become more confident in their ability to perform statistics

Advanced Methods in Family Therapy Research Richard B Miller, Lee N. Johnson, 2025-11-03 Advanced Methods in Family Therapy Research provides an accessible understandable primer to advanced clinical research methods and statistics all with the purpose of advancing therapy effectiveness and improving client care This fully revised new edition is designed to help readers produce consume and understand research keeping up to date with the latest developments in the field Accessibly written with marriage and family therapists and researchers in mind the chapters in the book address the changes in the research landscape of family therapy research including new research designs methods and statistical techniques that are now considered best practice Contributing authors share their wisdom on a wide variety of topics including randomized controlled

trials qualitative research cultural adaptation research and mixed methods research with new chapters on metaanalysis multilevel modelling benchmarking growth mixture modelling Bayesian statistics and more New information on how to consume as well as produce research is featured helping readers become informed consumers of journal articles and studies produce quality publishable research and write fundable grant proposals With further readings lists and online materials for classes this textbook is essential reading for graduate students in MFT training as well as MFT and clinical psychology researchers It will also be an invaluable resource for marriage and family therapists to help them keep abreast of innovations in clinical practice *The ESL Writer's Handbook, 3rd Edition* Janine Carlock, Maeve Eberhardt, Jaime Horst, 2025-01-06

Continuing fifteen years as the handbook for international students to build confidence in English for academic purposes

A Systematic Guide to Write a Research Paper , Writing Guide with Handbook Michelle Bachelor Robinson, Maria Jerskey, Toby Fulwiler, 2021-12-14 Writing Guide with Handbook aligns to the goals topics and objectives of many first year writing and composition courses It is organized according to relevant genres and focuses on the writing process effective writing practices or strategies including graphic organizers writing frames and word banks to support visual learning and conventions of usage and style The text includes an editing and documentation handbook which provides information on grammar and mechanics common usage errors and citation styles Writing Guide with Handbook breaks down barriers in the field of composition by offering an inviting and inclusive approach to students of all intersectional identities To meet this goal the text creates a reciprocal relationship between everyday rhetoric and the evolving world of academia Writing Guide with Handbook builds on students life experiences and their participation in rhetorical communities within the familiar contexts of personal interaction and social media The text seeks to extend these existing skills by showing students how to construct a variety of compelling compositions in a variety of formats situations and contexts The authors conceived and developed Writing Guide with Handbook in 2020 its content and learning experiences reflect the instructional societal and individual challenges students have faced The authors invite students and instructors to practice invitational discussions even as they engage in verbal and written argument Instructors will be empowered to emphasize meaning and voice and to teach empathy as a rhetorical strategy Students will be empowered to negotiate their identities and their cultures through language as they join us in writing discovering learning and creating This is an adaptation of Writing Guide with Handbook by OpenStax You can access the textbook as pdf for free at openstax.org Minor editorial changes were made to ensure a better ebook reading experience This is an open educational resources OER textbook for university and college students Textbook content produced by OpenStax is licensed under a Creative Commons Attribution 4.0 International License
