Development in Chinese Children Catherine McBride-Chang, Hsuan-Chih Chen, 2003-12-30 This text reviews both similarities and unique cultural linguistic and script differences of Chinese relative to alphabetic reading and even across Chinese regions Chinese reading acquisition relies upon children's strongly developing analytic skills as highlighted here These 16 chapters present state of the art research on diverse aspects of Chinese children's reading development This edited volume presents research on Chinese children's reading development across Chinese societies Authors from China Hong Kong Singapore and Taiwan among others present the latest findings on how Chinese children learn to read Reading acquisition in Chinese involves some parameters typically not encountered in some other orthographies such as English For example Chinese readers in different regions might speak different mutually unintelligible languages be taught to read with or without the aid of a phonetic coding system and learn different scripts This book both implicitly and explicitly considers these and other contextual issues in relation to developmental and cognitive factors involved in Chinese literacy acquisition One of the clearest themes to emerge from this volume is that across regions Chinese children despite lack of explicit teaching of phonetic or semantic character components learn to read largely by integrating visible print sound and print meaning connections Rather than learning to read Chinese characters by rote as is sometimes mistakenly believed these children are analytic learners Chapters in this book also cover such topics as Chinese children's reading comprehension cognitive characteristics of good and poor readers and reading strategies of bilingual and biscriptal readers This book is a useful reference for anyone interested in understanding either developing or skilled reading of Chinese or for those interested in literacy learning across cultures Children's Literacy Development Catherine McBride, 2015-12-14 In the

thoroughly updated second edition of this unique book Catherine McBride examines how the languages we know help structure the process of becoming literate Taking an ecological and distinctively cross cultural perspective the book looks at reading and writing development and impairment across a range of languages scripts and contexts The book covers issues including The importance of phonological sensitivity for learning to read and to write The first units or building blocks of literacy learning in different scripts such as Chinese English Korean Hangul Hebrew Hindi and Arabic The role of visual processing in reading and writing skills How the latest research can inform the teaching of reading An overview of our understanding of dyslexia including recent neuroscientific research The developmental challenges in becoming biliterate What is special about writing for beginners and later for comprehensive writing Basics of reading comprehension Children s Literacy Development Second Edition is a timely and important contribution to our understanding of literacy around the world Written by an eminent scholar in the field it is the only book available that provides an overview of how children learn to read and write in different languages and will be essential reading for all students of Developmental Psychology Educational Psychology Psycholinguistics and Speech Therapy [Linguistics and Language Behavior Abstracts](#) ,2008

Children's Literacy Development Catherine McBride-Chang,2014-02-04 This introduction to child literacy development looks at the subject from an international perspective and is appropriate for students and professionals across a wide range of disciplines **Handbook of Orthography and Literacy** R. Malatesha Joshi,P.G. Aaron,2013-05-13 Until about two decades ago the study of writing systems and their relationship to literacy acquisition was sparse and generally modeled after studies of English language learners This situation is now changing As the worldwide demand for literacy continues to grow researchers from different countries with different language backgrounds have begun examining the connection between their writing systems and literacy acquisition This text which derives from a NATO sponsored conference on orthography and literacy brings together the research of 70 scholars from across the world the largest assemblage of such experts to date Their findings are grouped into three parts as follows Part I Literacy Acquisition in Different Writing Systems describes the relationship between orthography and literacy in twenty five orthographic systems This section serves as a handy reference source for understanding the orthographies of languages as diverse as Arabic Chinese English Icelandic Kannada and Kishwahili Part II Literacy Acquisition From a Cross Linguistic Perspective makes direct comparisons of literacy acquisition in English and other orthographic systems The overall conclusion that emerges from these eight chapters is that the depth of an orthographic system does influence literacy acquisition primarily by slowing down the acquisition of reading skills Even so studies show that dyslexic readers can be found across all orthographic systems whether shallow or deep which shows that dyslexia also has internal cognitive and biological components Part III Literacy Acquisition Instructional Perspectives explores literacy acquisition from developmental and instructional perspectives and ends with a look into the future of literacy research This Handbook is appropriate for scholars researchers and graduate students in such diverse

fields as cognitive psychology psycholinguistics literacy education English as a second language and communication disorders

Index Medicus ,2002 Vols for 1963 include as pt 2 of the Jan issue Medical subject headings Cumulated Index Medicus ,1970 Handbook of Literacy in Akshara Orthography R. Malatesha Joshi,Catherine McBride,2019-06-11 This volume examines the unique characteristics of akshara orthography and how they may affect literacy development and problems along with the implications for assessment and instruction Even though akshara orthography is used by more than a billion people there is an urgent need for a systematic attempt to bring the features research findings and future directions of akshara together in a coherent volume We hope that this volume will bridge that gap Akshara is used in several Indic languages each calling it by a slightly different name for example aksharamu in Telugu akshara in Kannada and akshar in Hindi It is the Bhrami derived orthography used across much of the Indian subcontinent There is a growing body of research on the psycholinguistic underpinnings of learning to read akshara and the emerging perspective is that akshara even though classified as alphasyllabaries abugida and semi syllabic writing systems is neither alphabetic nor syllabic Rather akshara orthography is unique and deserves to be a separate classification and needs further investigation relating to literacy acquisition in akshara The chapters in this volume written by leading authors in the field will inform the reader of the current research on akshara in a coherent and systematic way Finance ,2006

Promoting All-Round Education for Girls Patricia P. K. Chiu,2020-06-02 Promoting All Round Education for Girls presents the history of Heep Yunn School one of the oldest girls schools in Hong Kong Amalgamated from two British mission schools founded in the 1880s for destitute girls and daughters of Christian parents and renamed Heep Yunn School in 1936 the institution has witnessed and responded to the dramatic changes of Hong Kong over the years By the time of the outbreak of the Second World War Heep Yunn had expanded to offer a full Chinese middle school course for girls based upon Christian principles of all round education The school expanded rapidly after the war and became a bilingual institution to meet the demand for English language education Eventually English would become the primary medium of instruction soon after the introduction of nine year universal education in 1978 Heep Yunn strives to provide a full fledged all round education in the midst of political and education reforms The school opted to switch its status from a government aided school to a direct subsidy scheme school in the early 2010s so as to retain a larger degree of autonomy This history of Heep Yunn School documents the concerted efforts of the school council staff students alumnae and parents to achieve the evolving visions of Christian education for girls as Hong Kong grew from a colonial trading port to a global financial centre in the twenty first century Promoting All Round Education for Girls convincingly charts the shifting purposes and practices of girls education in
