The Handbook of the Study of Play James E. Johnson, Scott G. Eberle, Thomas S. Henricks, David Kushner, 2015-02-05 The Handbook of the Study of Play brings together in two volumes thinkers whose diverse interests at the leading edge of scholarship and practice define the current field. Because play is an activity that humans have shared across time, place, and culture, and in their personal developmental timelines, and because this behavior stretches deep into the evolutionary past, no single discipline can lay claim to exclusive rights to study the subject. Thus, this handbook features the thinking of evolutionary psychologists, ethologists, and biologists; neuroscientists, developmental psychologists, psychotherapists, and play therapists; historians, sociologists, and anthropologists; cultural psychologists, philosophers, theorists of music performance and dance, specialists in learning and language acquisition, and playground designers. Together, but out of their varied understandings, the incisive contributions to The Handbook take on vital questions of educational policy, of literacy, of fitness, of the role of play in brain development, of spontaneity and pleasure, of well-being and happiness, of fairness, and of the fuller realization of the self. These volumes also comprise an intellectual history retrospective, looking at the great thinkers who have made possible the modern study of play.

The SAGE Handbook of Personality and Individual Differences Virgil Zeigler-Hill, Todd K. Shackelford, 2018-05-08 The examination of personality and individual differences is a major field of research in the modern discipline of psychology. Concerned with the ways humans develop an organised set of characteristics to shape themselves and the world around them, it is a study of how people come to be different and similar to others, on both an individual and a

cultural level This volume focuses on the multiple origins of personality and individual differences in chapters arranged across three thematic sections Part 1 Biological Origins of Personality and Individual Differences Part 2 Developmental Origins of Personality and Individual Differences Part 3 Environmental Origins of Personality and Individual Differences With outstanding contributions from leading scholars across the world this is an invaluable resource for researchers and graduate students

Decolonizing Discipline Valerie E. Michaelson, Joan E. Durrant, 2020-09-04 In June 2015 Canada's Truth and Reconciliation Commission released 94 Calls to Action that urged reform of policies and programs to repair the harms caused by the Indian Residential Schools Decolonizing Discipline is a response to Call to Action 6 the call to repeal Section 43 of Canada's Criminal Code which justifies the corporal punishment of children Editors Valerie Michaelson and Joan Durrant have brought together diverse voices to respond to this call and to consider the ways that colonial Western interpretations of Christian theologies have been used over centuries to normalize violence and rationalize the physical discipline of children Theologians clergy social scientists and First Nations Inuit and Métis leaders and community members explore the risks that corporal punishment poses to children and examine practical non-violent approaches to discipline The authors invite readers to participate in shaping this country into one that does not sanction violence against children The result is a multifaceted exploration of theological debates scientific evidence and personal journeys of the violence that permeated Canada's Residential Schools and continues in Canadian homes today Together they compel us to decolonize discipline in Canada
