Allaire,Jennifer E. Killham,2022-04-01 Science is unique among the disciplines since it is inherently hands on However the hands on nature of science instruction also makes it

uniquely challenging when teaching in virtual environments How do we as science teachers deliver high quality experiences in an online environment that leads to age grade level appropriate science content knowledge and literacy but also collaborative experiences in the inquiry process and the nature of science The expansion of online environments for education poses logistical and pedagogical challenges for early childhood and elementary science teachers and early learners Despite digital media becoming more available and ubiquitous and increases in online spaces for teaching and learning Killham et al 2014 Wong et al 2018 PreK 12 teachers consistently report feeling underprepared or overwhelmed by online learning environments Molnar et al 2021 Seaman et al 2018 This is coupled with persistent challenges related to elementary teachers lack of confidence and low science teaching self efficacy Brigido Borrachero Bermejo Gunning Duran Duran 2004 Ideal for undergraduate teacher candidates graduate students teacher educators classroom teachers parents and administrators this book addresses why and how teachers use online environments to teach science content and work with elementary students through a research based foundation

Teaching STEM in the Preschool Classroom Alissa A. Lange, Kimberly Brenneman, Hagit Mano, 2019 This book is designed to build educators confidence and competence so they can bring STEM to life with young children The authors encourage pre K teachers to discover the value of engaging preschoolers in scientific inquiry technological explorations engineering challenges and math experiences based on learning trajectories They explain the big ideas in STEM emphasizing teaching strategies that support these activities such as language rich STEM interactions and describe ways to integrate concepts across disciplines The text features research based resources examples of field tested activities and highlights from the classroom Drawing from a professional development model that was developed with funding from the National Science Foundation this book is an essential resource for anyone who wants to support preschool children to be STEM thinkers and doers I have read a lot of really good early childhood science education books over the years and as far as I am concerned this is the best one yet From the Foreword by Betty Zan University of Northern Iowa This excellent book shows that the important ideas of STEM are within every teacher s and child s grasp Douglas Clements University of Denver Teaches STEM content while sharing strategies for robust and developmentally appropriate instructional practice This book is the real deal Beth Graue University of Wisconsin Madison
