

Learning Targets (Part 2)

I can **develop** Learning Targets for an objective in a unit of study

I will show this by...

- ✓ Breaking apart an objective into “chunkable” lessons – sequencing learning
- ✓ Creating a clear, specific, and descriptive student-friendly target statement.

Defensible Teacher Evaluation Rick Stiggins, 2014-03-11 Meaningful teacher evaluation starts with visible student growth Annual standardized test scores cannot provide evidence of student growth needed to evaluate teacher performance But consider student growth in the form of evidence derived from classroom assessment and you re on to something For

assessment expert Rick Stiggins this can form the basis for a truly productive teacher evaluation strategy This revolutionary book helps you bring classroom assessment to bear for real school improvement with A plan for teacher evaluation based in part on dependable evidence of student growth Strategies for improving the assessment literacy of teachers and school leaders Five steps for developing and implementing productive local district assessment systems Practical tools that teachers and their evaluators can put to use immediately In this era of aggressive teacher evaluation reform where teachers are charged with preparing ALL students to master 21st century proficiencies the measurement of teacher success must start where learning happens in the classroom Developing a fair practical and effective teacher evaluation system is like climbing a high mountain it s impossible until someone finds a route That s what Rick does in this book He identifies the immense challenges associated with using evidence on student learning as the principal criteria in teacher evaluation and then offers practical guidance for overcoming those challenges He hasn t made the climb easy but he shows us the way Thomas R Guskey Professor of Educational Psychology University of Kentucky Rick Stiggins builds a compelling case for the development of a solid foundation of assessment competence throughout our educational system Linda Darling-Hammond Charles E Ducommun Professor of Education Stanford University *Social Justice in Action* Neal A. Lester, 2024-11-08 Addressing both veterans of justice work and novices seeking points of entry the essays in this volume showcase practical approaches to diversity equity and inclusion ways to build community earn trust tell unheard stories and develop solutions to problems Emphasizing values such as empathy self reflection and integrity the volume is rooted in humanities work but also features contributions from fields as diverse as the performing arts architecture and evolutionary biology and represents settings beyond the college campus such as schools libraries museums and prisons While bringing insights from higher education it critiques the system as well exploring the ways that institutions reinforce power structures and exclude marginalized voices Interspersed with the essays brief reflections by activists and artists offer testimony and inspiration

Ten Assessment Literacy Goals for School Leaders Stephen Chappuis, Steve Chappuis, Susan M. Brookhart, Jan Chappuis, 2021-04-21 Of all school related factors that influence student learning only classroom instruction has greater impact than leadership And leaders have the greatest impact when they set direction citing that the goals and purpose they provide serves to strengthen and solidify the faculty The ten competencies for school leaders described in this book are based on a few factors First standards driven reform has created new knowledge requirements and responsibilities for school leaders In today s systems sorting students along a bell curve and artificially creating winners and losers has been replaced by a mission that all students must learn well Instead of a curriculum focused on what a teacher should teach the curriculum identifies what students must know and be able to do These standards are public and communicate what a state or district values when it comes to student learning Assessing the standards day to day not through large scale accountability tests or even local short cycle or common assessments is a requirement for effective standards based reform Second is the reward of

improved student learning brought about by the use of classroom assessment for learning Assessment for learning has implications not just for school leaders but also for broader educational practice The research is conclusive and improved learning lies within the grasp of anyone wishing to apply it What does it look like when school leaders demonstrate mastery of the Ten Assessment Competencies Included in the book are examples learning activities and opportunities for practice as well as success indicators for each competency as leaders work toward mastery

Artificial Intelligence in Education R. Luckin, K.R. Koedinger, J. Greer, 2007-06-29 The nature of technology has changed since Artificial Intelligence in Education AIED was conceptualised as a research community and Interactive Learning Environments were initially developed Technology is smaller more mobile networked pervasive and often ubiquitous as well as being provided by the standard desktop PC This creates the potential for technology supported learning wherever and whenever learners need and want it However in order to take advantage of this potential for greater flexibility we need to understand and model learners and the contexts with which they interact in a manner that enables us to design deploy and evaluate technology to most effectively support learning across multiple locations subjects and times The AIED community has much to contribute to this endeavour This publication contains papers posters and tutorials from the 2007 Artificial Intelligence in Education conference in Los Angeles CA USA
