Palardy, 2018-07-27 This study examines contemporary Spanish dystopian literature and films in directly related to the 2008 financial crisis from an urban cultural studies perspective It explores culturally charged landscapes that effectively convey the zeitgeist and reveal deep rooted anxieties about issues such as globalization consumerism immigration speculation precarity and political resistance particularly by Indignados Indignant Ones from the 15 M Movement The book loosely traces the trajectory of the crisis with the first part looking at texts that underscore some of the behaviors that indirectly contributed to the crisis and the remaining chapters focusing on works that directly examine the crisis and its aftermath This close reading of texts and films by Ray Loriga Elia Barcel Ion de Sosa Jos Ardillo David Llorente Eduardo Vaquerizo and Ricardo Men ndez Salm n offers insights into the creative ways that these authors and directors use spatial constructions to capture the dystopian imagination **Apex Courts and the Common Law** Paul Daly, 2019-04-08 For centuries courts across the common law world have developed systems of law by building bodies of

judicial decisions In deciding individual cases common law courts settle litigation and move the law in new directions By virtue of their place at the top of the judicial hierarchy courts at the apex of common law systems are unique in that their decisions and in particular the language used in those decisions resonate through the legal system Although both the common law and apex courts have been studied extensively scholars have paid less attention to the relationship between the two By analyzing apex courts and the common law from multiple angles this book offers an entry point for scholars in disciplines related to law such as political science history and sociology who are seeking a deeper understanding and new insights as to how the common law applies to and is relevant within their own disciplines **Blackstone's Criminal**

M. M. Jackson,2019-11-26 The Chorus of Drama in the Fourth Century BCE seeks to upend conventional thinking about the development of drama from the fifth to the fourth centuries and to provide a new way of talking and thinking about the choruses of drama after the deaths of Euripides and Sophocles Set in the context of a theatre industry extending far beyond the confines of the City Dionysia and the city of Athens the identity of choral performers and the significance of their contribution to the shape and meaning of drama in the later Classical period c 400 323 as a whole is an intriguing and under explored area of enquiry This volume draws together the fourth century historical material dramatic

literary and philosophical sources that attest to the activity and quality of dramatic choruses and having considered the positive evidence for dramatic choral activity provides a radical rethinking of two oft cited yet ill understood phenomena that have traditionally supported the idea that the chorus of drama declined in the fourth century the inscription of u s in papyri and manuscripts in place of fully written out choral odes and Aristotle s invocation of embolima Poetics 1456a25 32 It also explores the important role of influential fourth century authors such as Plato Demosthenes and Xenophon as well as artistic representations of choruses on fourth century monuments in shaping later scholars understanding of the dramatic chorus throughout the Classical period reaching conclusions that have significant implications for the broader story we wish to tell about Attic drama and its most enigmatic and fundamental element the chorus *Multiverse Theories* Simon
