Torque, 2006-02 Singapore's best homegrown car magazine with an editorial dream team driving it. We fuel the need for speed. Decoding China's Car Industry: 40 Years Anding Li, 2021-12-02 This book is an authentic multidimensional history of the car industry in China. 40 years attempts were made to change the status quo such as breaking the 220% tariff barrier and setting limits when opening up to international car companies. It was not until the beginning of the 21st century that ordinary people in China started to own cars. This led to rapid growth of the Chinese car industry since the 21st century. However, the industry is facing its biggest challenge due to conflict between China's economic and social values. The author, as a media person chronicling cars in China, has witnessed, experienced and even participated in the development process of the industry. Weaving in juicy tales, interesting details and rare pictures, the readers are taken on an exhilarating ride through the story of cars in China. **Daily Graphic** Yaw Boadu-Ayebofoh, 2006-06-13 *Index to*

Philippine Periodicals, 2005 **Investment Aftercare Explained** Carolina Arriagada Peters, David Coble, Toby X. Li, Brendan Lewis, 2021-11-29 This book is the first to systematically map the last step of the foreign investor's journey, usually referred to as post-investment aftercare or business retention and expansion. It provides a wide range of approaches and strategies for host economies to better retain foreign investors, encourage follow-on expansions and achieve greater local economic embeddedness through a multi-stakeholder dialogue leading to improvement of the overall business climate. Global foreign direct investments reached US 1.5 trillion in 2019 but this figure reduced by over 42% in 2020 due to the pandemic. Against this backdrop, retaining established investors became even more important. Numerous organisations all over the world are dedicated to attracting foreign companies to invest in their markets. Facilitating this effort is a dynamic and competitive industry that involves international organisations, supporting capacity building, think tanks, academia and consultants. However, once foreign companies decide to invest, a critical question arises: how can host economies grow and retain these foreign investments? Many host governments could do much better as there is very little post-investment support.

for these foreign companies to help them grow their businesses throughout different stages of investment business and economic cycles This is where aftercare comes in In this book the authors include diverse examples from around the world to demonstrate aftercare best practices in action This book is an essential read for all public administration staff related to FDI attraction and promotion practitioners in the private sector and FDI consultants It will also be of great interest to multilateral organisations seeking to organise seminars and training courses for capacity building The book will also benefit researchers academics and postgraduate students of international relations foreign trade and internationalisation For further information see www.aftercareexplained.com **Daily Graphic** Ransford Tetteh,2011-02-18 **Gravity** , Self Healing Materials
