
Sample Open Ended Response

While looking at the problem keep the following in mind:

- What would qualify as a 3 point response? 2 points? 1 point? 0 points?
 - There is always a range of responses within each score point. This helps define the tenuous line between a 2/3, 1/2 and 0/1. (low 2, high 2, low 1, high 1). Each open ended question has a unique scoring rubric.
 - If a student makes an error in one part and uses the correct process for the second part (which incorporates the error made), the error will only be counted once.
 - Responses are graded by humans, not machines. Therefore, students should make any attempt at a response as **clear** and **concise** as possible.
