Blazenka Knezevic, Gaby Neumann, 2017-07-08 Foreword A famous Portuguese Poet once said around one hundred years
ago before I was born all the words that should save the Humanity had already been written the only thing that was missing
was to save Humanity Fast forward to the 21st century services led and knowledge based economy and we have myriads of
theoretical study about the decisive assets namely intangibles Those analysis are made in several perspectives namely
Human Resources Knowledge Management Intellectual Capital and also many sectorial perspectives like Trade Economics
Logistics Social Policy etc However today the question about the applicability of all these studies remains unsolved So it like
many of the words that will save the Knowledge Economy have already been written all we need is to save the Knowledge
Economy Or is it not The idea behind TAKE Conference was to provide a multidisciplinary forum in which those multiple
perspectives will come together We believe it is a fruitful operation and we intend to continue the exercise in the future The
problem of the relation between theory and practice in the knowledge economy is getting more important and not
less important with the development of the BRICS and other nations TAKE main question will be one of the problems of the
21st century Following the promising start of TAKE 2016 in Aveiro Portugal TAKE 2017 was organized by the Faculty of
Economics of Zagreb University around Prof Blazenka Knezevic I would like to thank her and her team for the massive effort
in putting TAKE 2017 together It will be a very nice and memorable conference I would like also to thank the 5 keynotes the
special sessions and workshop organizes the authors of the 60 papers and 5 posters the stream leaders the reviewers and the
sponsors for the efforts And to the 90 participants from 20 countries Austria Bosnia Herzegovina Canada Croatia Germany
