Using Film to Understand Childhood and Practice Sue Aitken,2018-02-08 Using Film to Understand Childhood and Practice is an innovative and lively text which allows complex and challenging issues within childhood studies to be explored using the medium of filmed drama By utilising popular culture this book provides accessible narratives to students and lecturers needing to engage with complex theoretical ideas In exposing theories to tangible situations often from more than one perspective in films readers are helped to identify and recognise how theories about children and

childhood can be applied Each chapter uses a specific film to provide the basis for discussion in order to explore and analyse key concepts within childhood studies which include identity social construction families political and biological narratives children s rights and participation A range of international films are used including Charlie and the Chocolate Factory Rabbit Proof Fence The Hunger Games and The Red Balloon First introducing the theoretical perspective to be discussed chapters also include a contextual explanation of the film and list the specific scenes that will be used to guide students through Concluding with discussion questions students are asked to consider how the theories discussed might be translated in to their own experiences of children childhood and practice Not only supporting understanding of core principles and key ideas across any childhood studies degree this book supports students throughout their university career and beyond by engaging with the journey of becoming a graduate as well as discussion of workplace issues and concepts after graduation

Unshackled Clint Bolick,Kate J. Hardiman,2021-01-01 Clint Bolick and Kate J Hardiman begin with a thought experiment how would we structure a 21st century K 12 school system if we were starting from scratch attending to contemporary parental needs and harnessing the power of technology Maintaining that the status quo is unacceptable they take a forward thinking look at how choice competition deregulation and decentralization can create disruptive innovation and reform education for all students The US Supreme Court proclaimed 65 years ago in Brown v Board of Education that our schools must provide equal educational opportunities but as Bolick and Hardiman argue we have yet to make good on that promise School systems are bound to antiquated structures outdated technology and bureaucratic systems that work for adults not children The COVID 19 pandemic has highlighted how ossified the traditional public school system has become Today s ruptures in traditional learning create opportunity for reinvention Unshackled explains that technology can redefine the ways students learn in and out of the classroom and highlights the benefits of expanding educational freedom so that families are able to choose an education that fits their child s needs *A doctor's order. The Dutch Case of Evidence-Based Medicine (1970-2015)* Timo Bolt,2015-08-28 In the early 1990s a new concept was coined evidence based medicine EBM After a remarkably short time EBM was virtually all pervasive in medicine and healthcare throughout the world Even outside the domain of healthcare the new concept became fashionable for example in the shape of pleas for evidence based management and evidence based policy In short evidence based developed into one of the mantras of the current era This book uses history as a tool to gain insight into the highly influential but also elusive and multifaceted phenomenon of EBM As such A Doctor s Order is a must read for patients professionals managers and policy makers in healthcare as well as for anyone who is interested in understanding the present socio political order
