Shared Praxis Approach Thomas Groome:

Sharing Faith Thomas Groome, 1998-11-23 Provides a comprehensive introduction to all aspects of religious education and pastoral ministry and gives an in depth inquiry into the philosophical educational and theological theories for sharing faith

Shared-praxis as Christian Religious Education Thomas Kalathuveetil, 1992

Christian Religious Education Thomas H. Groome, 1980 What mission calls us to teach How do societal issues social oppression poverty politics affect what we teach how we teach it and how people learn Who are our students What and when are they ready to learn Once we understand these foundations how can we facilitate an educational experience that has the power to shape and transform people and communities in life giving ways of faith In this classic text Thomas Groome asks and answers these central questions providing a comprehensive integration of the history theory and practice of modern religious education for a new generation of educators His self reflective approach shared praxis will inspire school teachers students of religious education pastors parents and religious educators in local churches who want to understand themselves their mission and their surroundings Copyright Libri GmbH All rights reserved

C. E. James Riley Estep, 2003 *Educational Ministry in the Logic of the Spirit* James E. Loder, 2018-07-20 In November 2001 James E Loder Jr Professor of the Philosophy of Christian Education for forty years at Princeton Theological Seminary suddenly died He was a creative and profound thinker who had just completed a promising book In it he developed a compelling interdisciplinary model to disclose how the divine Spirit affirms reconstitutes and transforms the human spirit to bring new energy and creativity into human experience He called it redemptive transformation You now hold that book in your hands Those who know Loder s work are confident that Educational Ministry in the Logic of the Spirit though delayed for over fifteen years will still become the best introduction to his complex thought More important it offers the imaginative means by which we may learn to attune ourselves and our faith communities to what God is doing in our fractured distracted and self destructive world to bring about a revolution of love the fruit of Christ s Spirit and the center of our human vocation

Practical Theology in Church and Society Joseph E. Bush, 2016-07-20 The church exists in the world and our ministry is inextricably social in nature Practical theology takes this seriously and asks us to reflect on our practice of ministry in both church and society This book attends to our practice as individuals in ministry to our corporate practice as congregations in ministry and to our practice as Christians within the wider social and natural world Practical Theology in Church and Society brings into sharper focus two perspectives on practical theology One is the view through the wide angle lens of justice oriented action which hopes for liberation This view encompasses a broad vista of social forces for justice and injustice when evaluating local movements and local ministries The other perspective takes the narrower focus of the action reflection model as it is used to zoom in on individual actions and particular practices of ministry such as pastoral care The purpose of the book is to integrate these two perspectives on practical theology It explicates a cyclical method for doing theology that has corollaries within the disciplines of practical

theology liberation theology missiology congregation studies and ministerial leadership The volume provides resources for developing more socially and ecologically engaged ministries and it draws implications for ministerial education

International Handbook of the Religious, Moral and Spiritual Dimensions in Education Marian de Souza, Gloria Durka, Kathleen Engebretson, Robert Jackson, Andrew McGrady, 2007-06-04 Traditionally spirituality has resided and been contained within religious frameworks but while the links between the two areas are still acknowledged by many in the contemporary world spirituality is perceived by some as an aspect of human life that is distinct from religion Consequently many are searching for meaning within and without religious traditions today and seeking answers to ethical and moral questions that have been generated by the knowledge and technological explosion One outcome is the renewed interest in the religious spiritual and moral dimensions of education throughout the life cycle This International Handbook presents the research and professional practice of scholars who are daily engaged in the consideration of these dimensions in education The result is a collection of essays which reflects the discipline in all of its internationality as it is today Embedded within the chapters is also an agenda for the future where the religious moral and spiritual dimensions in education are proposed as an exciting and challenging way forward for educators at all levels in society As well it offers a vision for the emergence of a peaceful and just world

Intergenerational Catechesis timone a davis, 2021-03-12 In this work the author moves away from youth centered catechesis toward a catechetical method that gets at the heart of faith formation for ALL generations storytelling In the African American storytelling tradition both the storyteller and listener are important they embody the story What happens in the story exchange process is the discovery of connections The author's method of African American storytelling My Story Your Story brings to life the Christian story through our shared experiences Intergenerational catechesis invites us to see ourselves and one another across time through eyes that are young middle aged and elderly Based on an understanding of family intergenerational catechesis moves away from the domestic church as a starting point for growing in faith to the community as a starting point Where the domestic church focuses on those who live in the household intergenerational catechesis focuses on everyone in the Church community single persons divorced persons widows widowers teens young adults pre school and elementary children parents grandparents aunts and uncles In highlighting our connections we are better able to see ourselves and one another differently When we see ourselves and others transformed faith is revitalized

Transforming Ministry Formation Hahnenberg, Edward P., Jewell, Marti R., Whapham, Theodore James, 2021 A theological and practical exploration of ministry formation in the church today *Ten Strategies for Building Community with Technology* Bernie Potvin, Nicki Rehn, David Peat, 2014-06-16 Educators in online and other technology rich environments consistently ask How can I build community among the learners in my class They know learning is strengthened by community but aren't sure how to design a community in a learning environment where technology plays a significant role Ten Strategies for Building Community with Technology answers their question with

proven strategies developed over the authors thirty years experience designing and teaching online classes The ten strategies demonstrate that technology is not an impediment to community but instead a tool for building more effective learning environments than are possible with traditional face to face classrooms Used the right way technology can provide more instructional time more opportunities for students to reflect more chances to share and connect and more access to feedback But these effective learning environments don t happen by chance This book will give you all the background tactics examples and advice you need to design successful learning communities with technology Ten Models for Building Learning Communities Transmission Direct Instruction Guided Discovery Nurturing Apprenticeship Case Study Shared Praxis Insight Generating Training Projects Inquiry
