The Meritocracy Trap Daniel Markovits, 2020-09-08 A revolutionary new argument from eminent Yale Law professor Daniel Markovits attacking the false promise of meritocracy It is an axiom of American life that advantage should be earned through ability and effort Even as the country divides itself at every turn the meritocratic ideal that social and economic rewards should follow achievement rather than breeding reigns supreme Both Democrats and Republicans insistently repeat meritocratic notions Meritocracy cuts to the heart of who we are It sustains the American dream But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy's successes This is the radical argument that Daniel Markovits prosecutes with rare force Markovits is well placed to expose the sham of meritocracy Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within Markovits also knows that if we understand that meritocratic inequality produces near universal harm we can cure it When *The Meritocracy Trap* reveals the inner workings of the meritocratic machine it also illuminates the first steps outward towards a new world that might once again afford dignity and prosperity to the American people

Mostafa, 2018-08-30 The migration of farm workers to rural Scotland is an important issue that relates to the existing theories and research in contemporary equality and cultural capital studies particularly in regard to the exploration of how and in what ways cultural capital theory can be addressed to study migrants equality claims the examination of how complex equality models can be used for inquiry into the reinforcement of inequalities in cultural capital and the accumulative effects of such inequality In particular the experiences of East European migrant farm workers challenge theoretical perspectives that apply a an approach of equality claim from cultural capital which emphasize b equal right to recognition and therefore c focus on entitlement to equal protection against any discrimination This book therefore offers us a way to explore these experiences with a call for attention to be paid to a large number of East European migrant farm workers who have migrated to rural Scotland to work in low paid jobs marked with low skills Unlike majority members of a population migrant farm workers often give up their cultural capital and take up low skilled jobs in order to gain opportunities for success in other spheres in their lives Critiquing such a trade off approach if the sphere of migrants cultural capital is invaded and the cultural capital of local workers native is acknowledged migrants are in a vulnerable position I also argue although migrants achievements are devalued and their substantive equality remains unprotected their claim from cultural capital is relatively strong and valid to manage The more vulnerable a migrants cultural capital is in terms of recognition and protection the stronger his or her claim from cultural capital will be Under the theoretical framework I argue that if equal recognitions of cultural capital are not actively ensured this is highly likely to produce increased claims to equality *Kenya and the Politics of a Postcolony* Wanjala S. Nasong'o, 2024-08-06 This book sets out to probe explore and evaluate the betrayal of anticolonial nationalism in Kenya Contemporary Kenya's emergence is rooted in the colonial enterprise its deleterious effects and the subsequent decolonization spearheaded by a fierce anti colonial nationalism that was embodied in freedom struggles at the cultural political and military levels As a settler colony the colonial settlers hived off millions of hectares of the best land in the highland areas of Kenya and appropriated them for themselves thereby generating a large mass of the landless This land alienation constituted one of the most deeply felt grievances which together with the exclusivist exploitative and oppressive colonial system inflamed anti colonial nationalism that undergirded the struggle for independence The expectation on the

part of the masses was that independence would bring about social justice restitution of the stolen lands and a government based on the will and aspirations of the governed Political developments soon after independence however demonstrated the extent of betrayal of the cause of anti colonial nationalism which has remained the reality to date This book covers the extent of this sense of betrayal from the time of independence to the present It begins by locating contemporary Kenya within the colonial context then proceeds to thematic issues of betrayal including the fall out between President Kenyatta and Vice President Odinga over ideology and issues of development which constituted the first betrayal the scourge of bureaucratic corruption and rent seeking the question of land and associated historical injustices and electoral malpractice since the return of multiparty politics in 1992 to the most recent elections of 2022 The implications of these dynamics for the future of the Kenyan polity are delineated and discussed **The European Banking Union and Constitution** Stefan

Grundmann, Hans-W. Micklitz, 2019-01-24 In 2012 at the height of the sovereign debt crisis European decision makers pushed for developing an ever closer union with the formation of a European Banking Union BU Although it provoked widespread debate to date there has been no coherent discussion of the political and constitutional dimensions of the European Banking Union This important new publication fills this gap Drawing on the expertise of recognised experts in the field it explores banking union from legal economic and political perspectives It takes a four part approach Firstly it sets the scene by examining the constitutional foundations of banking union Then in parts 2 and 3 it looks at the implications of banking union for European integration and for democracy Finally it asks whether banking union might be more usefully regarded as a trade off between integration and democracy This is an important timely and authoritative collection Strangers in Their Own Land Arlie Russell Hochschild, 2018-02-20 The National Book Award Finalist and New York Times bestseller that became a guide and balm for a country struggling to understand the election of Donald Trump A generous but disconcerting look at the Tea Party This is a smart respectful and compelling book Jason DeParle The New York Times Book Review When Donald Trump won the 2016 presidential election a bewildered nation turned to Strangers in Their Own Land to understand what Trump voters were thinking when they cast their ballots Arlie Hochschild one of the most influential sociologists of her generation had spent the preceding five years immersed in the community around Lake Charles Louisiana a Tea Party stronghold As Jedediah Purdy put it in the New Republic Hochschild is fascinated by how people make sense of their lives Her attentive detailed portraits reveal a gulf between Hochschild s strangers in their own land and a new elite Already a favorite common read book in communities and on campuses across the country and called humble and important by David Brooks and masterly by Atul Gawande Hochschild s book has been lauded by Noam Chomsky New Orleans mayor Mitch Landrieu and countless others The paperback edition features a new afterword by the author reflecting on the election of Donald Trump and the other events that have unfolded both in Louisiana and around the country since the hardcover edition was published and also includes a readers group guide at the back of the book **The Frontiers of Corporate Food in**

Egypt Marion W. Dixon, 2023 This book details the development and growth of a corporate agri food system in Egypt Marion W Dixon draws on mixed methods research in Egypt between 2008 and 2012 to show how the growth of corporate food has contributed to growing food insecurity and to multiplying threats to public health from chronic and infectious diseases

Public and Private Enforcement of Securities Laws Michael Legg,2022-02-10
This book undertakes unique case studies including interviews with participants as well as empirical analysis of public and private enforcement of Australian securities laws addressing continuous disclosure Enforcement of laws is crucial to effective regulation Historically enforcement was the province of a government regulator with significant discretion public enforcement However more and more citizens are being expected to take action themselves private enforcement Consistent with regulatory pluralism public and private enforcement exist in parallel with the capacity to both help and hinder each other and the achievement of the goals of enforcement in a range of areas of regulation The rise of the shareholder class action in Australia backed by litigation funding or lawyers has given rise to enforcement overlapping with that of the government regulator the Australian Securities and Investments Commission The ramifications of overlapping enforcement

are explained based on detailed analysis The analysis is further bolstered by the regulator s approach to enforcement changing from a compliance orientation to a Why not litigate approach The analysis and ramifications of the Australian case studies involve matters of regulatory theory and practice that apply across jurisdictions The book will appeal to practitioners regulators and academics interested in regulatory policy and enforcement and the operation of regulators and class actions including their interaction

Handbook of Research in Educational Communications and Technology M. J.

Bishop,Elizabeth Boling,Jan Elen,Vanessa Svihla,2020-09-21 The 5th edition of the prestigious AECT Handbook continues previous efforts to reach outside the traditional instructional design and technology community to the learning sciences and computer information systems communities toward developing a conceptualization of the field However given the pervasive and increasingly complex role technology now plays in education since the 1st edition of the Handbook in 1996 the editors have reorganized the research chapters in this edition to focus on the learning problems we are trying to solve with educational technologies rather than to focus on the things we are using to solve those problems Additionally for the first time this edition of the Handbook reflects our field s growing understanding of the importance of design scholarship to inform practice by including design case chapters These changes for this edition of the Handbook are intended to bring educational technology research into the broader framework of educational research by elaborating on the role instructional design and technology plays as a scholarly discipline in addressing education s increasingly complex issues Provides comprehensive reviews of new developments in educational technology research and design practice Includes concrete examples to guide future research and practice in the ways emerging technologies can be used to solve educational problems Contains extensive references furnished to guide readers to the most recent research and design practice in the field of instructional design and technology
