

PORTRAIT POSING GUIDE

HOW TO POSE... FULL-LENGTH MALES

Digital
Camera
World

SIDE-ON

Ask your subject to stand side-on for the slimmest view of the body and to give shape to the shoulders.
Top tip: Bent arms add shape to the pose, so try moving a hand up to break up the body.

CASUAL DRESS

Ask your model to stand side-on, with their front foot facing forward and their back foot side-on, resting their weight on the back leg.
Top tip: Hands in pockets gives a relaxed feel.

WALKING TALL

Ask your model to walk towards the camera while exaggerating the drop of the shoulders.
Top tip: Shoot from slightly lower down to give a taller and more imposing portrait.

COLLARS UP

Guys often need something to do with their hands, so ask them to adjust their clothes.
Top tip: Suits are useful for this as they can fix the cuff, adjust a button or hold the lapel.

BACK TO FRONT

Sit your model on a chair, leaning over the back of it.
Top tip: Props are particularly useful for guys as it makes them look less like they're posing, but don't try to force poses that look too unnatural.

TAKE A PEW

While on the chair, ask your model to lean forwards and slightly to the side, with feet coming together.
Top tip: Relax the arms, allowing the hands to drop down for a more natural shot.

ON THE MOVE

Have your model walk side-on to the camera, then turn, keeping the arms loose and slightly bent.
Top tip: Bringing the knees together creates a more attractive shape to the body.

LEAP OF FAITH

Jumps can add spontaneity. Ask your model to bring their legs upwards and have open clothes flying free.
Top tip: Ask them to focus on making a good expression when jumping.

KARATE KICK!

Throw in some fun poses; depending on your subject this could be a kick, a dance move, or a backflip!
Top tip: Starting off with the 'silly' ideas is a great way to relax subjects into the shoot.

Quick Guide To Posing People

Ray Jackendoff

Quick Guide To Posing People:

Beginners Guide To Portrait Photography Steve Rutherford, 2018-07-01 Written by Multi Award Winning Australian Photographer Trainer and Best Selling Author Steve Rutherford This book The Beginners Guide to Portrait Photography is one of the best selling Beginners Guide to Photography book series and is an easy to understand practical guide to portrait photography Here is what you will discover The SECRET TECHNIQUES pro photographers use every day FREE Access to BONUS VIDEO TRAINING to learn photo editing like a pro Over 200 pages of hands on easy to follow instruction The equipment that takes your shots from boring to amazing How to save time and money using the right photography tools How to turn your photography passion and creativity into a BIG income You will discover the many secrets that I and other pro photographers use to capture stunning award winning photos with sharper focus more color more detail and less time wasting trying every setting to hope for a good shot Set out into an easy to follow page by page guide join me indoors outdoors and at night on all aspects of photography and how to take control of your DSLR Camera and master striking photos with every shoot The Beginners Guide to Portrait Photography is clearly written easy to understand guide will be an indispensable resource whenever you pick up the camera for your next portrait photography shoot You ll also get FREE access to Video Training at <https://www.photocheats.com> Also FREE Access to One Shot Magazine at <http://www.oneshotmagazine.com> It is packed full of tips and tricks to improve your photography Just follow the links to both Photo Cheats and One Shot Magazine in the book or Like us over at <https://www.facebook.com/OneShotMagazine> Please also come back and leave a review we would love to know what you thought of this book Don t forget to check out the other books in the Beginners Guide to Photography book series Written with all levels in mind there is instruction for beginners as well as many advanced techniques and tips I have also included live website links throughout as well as easy to find quick tip sections The Beginners Guide to Photography book series breaks techniques down into specific categories so you can perfect these techniques Please see the other books in the series for more in depth tutorials on a large range of photography styles Please also come back and leave a review we would love to know what you thought of this book Don t forget to check out the other books in the The Beginners Guide to Photography best selling photography book series 5 STAR REVIEWS for this book series so far Explanatory easy descriptions involved material Loved it has helped me in numerous ways Have used it as a reference constantly One of my photos has gone viral since using the hints and tips in the book Small adjustments make huge differences Mike Roche Has absolutely everything Do not miss out on this book As the title says it has absolutely everything and I particularly like the boxes with advice to shoot particular subjects It doesn t matter whether you are just starting out or experienced with a camera it has something for everyone Highly recommended Paul B Well worth the money Great book that starts from the very basics explains everything to do with modern cameras their use settings and techniques under different settings and circumstances Qball A great read Getting back into photography after a 6 yr break born and raised on a film

SLR this book helped me remember things and to better adapt to a digital SLR whether you re novice or experienced you will get a lot out of this book Brian I love this book and hope to capture few good images as a result of this Jatinkumar *Quick Guide to the Four Temperaments and Change* Donna Dunning,2006 Examines what people must do to successful navigate change and provides strategies and tools to assist The booklet then introduces temperament theory and delves into differences in the way each temperament tends to experience and react to change With these individual differences in mind readers can recognize more specifically what they need to make a change occur as smoothly as possible page 1 *Quick Guide to the Coming Apocalypse* David Lee, **A Simple Guide to John** Paul J. McCarren, SJ,Paul J. McCarren,2012-11-21 The Gospel writers state they aim to tell the story of Jesus in a clear manner but throughout Paul McCarren s years in ministry he has seen that these simple and important messages are too often missed In his Simple Guides to the Gospels series McCarren provides a new translation of each Gospel book leading readers chapter by chapter through the text Each section includes scripture and a brief engaging commentary about how readers can relate to the material The Simple Guides introduce readers to life in early Christianity describe points of controversy and show how each section fits with those that went before The Simple Guide to Matthew highlights many of Jesus compelling sayings stories such as the Sermon on the Mount and key themes of Jesus ministry such as trust The books in the Simple Guides to the Gospels series are available individually or together as a complete set *A User's Guide to Thought and Meaning* Ray Jackendoff,2012-02-23 A User s Guide to Thought and Meaning presents a profound and arresting integration of the faculties of the mind of how we think speak and see the world Ray Jackendoff starts out by looking at languages and what the meanings of words and sentences actually do He shows that meanings are more adaptive and complicated than they re commonly given credit for and he is led to some basic questions How do we perceive and act in the world How do we talk about it And how can the collection of neurons in the brain give rise to conscious experience As it turns out the organization of language thought and perception does not look much like the way we experience things and only a small part of what the brain does is conscious Jackendoff concludes that thought and meaning must be almost completely unconscious What we experience as rational conscious thought which we prize as setting us apart from the animals in fact rides on a foundation of unconscious intuition Rationality amounts to intuition enhanced by language Written with an informality that belies both the originality of its insights and the radical nature of its conclusions A User s Guide to Thought and Meaning is the author s most important book since the groundbreaking *Foundations of Language* in 2002 *User's Guide Eye Health Supplements* Bill Sardi,2003 Cataracts and age related muscular degeneration are the most common vision threatening eye diseases Both interfere with vision and many lead to blindness Yet many natural supplements such as lutein and zeaxanthin play normal roles in protecting the eyes This User s Guide to Eye Health Supplements explains how these and other nutrients can reduce your risk of eye disease Wedding Photography Steve Sint,2005 In this information packed guide Steve Sing gives photographers the best of his
