Implementing a global health programme Susan Heydon, 2025-02-18 Worldwide eradication of the devastating viral disease of smallpox was devised as a distant global policy but success depended on implementing a global vaccination programme within nation states How this was achieved remains relevant and topical for responding to today's global communicable disease challenges The small and poor Himalayan kingdom of Nepal faced enormous geographical and infrastructure challenges if it was going to succeed in a nationwide vaccination programme This book acknowledges the key role of the WHO but disrupts the top down centre led standard narrative Against a background of widespread internal political and social change Nepal's programme was expanded effectively decentralised and a vaccination strategy introduced that aligned with people's beliefs Few foreign personnel were involved Energy and Power Stephen G. Gross, 2023-04-28 In Energy and Power Stephen G Gross offers the first comprehensive history of German energy and climate policy from World War II to the present He shows how debates over energy profoundly shaped the course of German history and influenced the landmark developments that define modern Europe Moving beyond conventional economic theory this book gives a novel explanation for why energy transitions happen Further it provides a powerful lens to move beyond conventional debates on Germany's East West divide or its postwar engagement with the Holocaust to explore how this nation has shaped the contemporary world in other important ways History of the Future of Economic Growth Iris Borowy, Matthias Schmelzer, 2017-02-24 The future of economic growth is one of the decisive questions of the twenty first century Alarmed by
