

XV Pułk Piechoty's guide to good shooting

-WŁW542137

1. The most important thing in the beginning is the settings, so you need to have them the same as the rest of us:

* Aiming on public servers is different from aiming on event servers, on public servers you need to aim slightly lower.

Below are examples of how to aim at a given distance:

50m
The waist

75m
The waist

100m
The head

125m
1/3 of the silhouette

125m
Peak of smoke

150m
One silhouette over

180m
Two silhouettes over

*Always aim with the lower part of the sight.

*It should be noted that there can be 3 different recoils when shooting a musket, so even when aiming well you may miss.

*(Up to 50/75 meters this rule does not exist and you can hit almost always)
