The Bloomsbury Handbook of Early Childhood Transitions Research Aline-Wendy Dunlop, Sally Peters, Sharon Lynn Kagan, 2024-09-19 Research into early childhood transitions has become a field in its own right It is increasingly understood that a positive start in any new setting can influence the child's engagement sense of belonging well being progression in learning and agency and may be dependent on the insight of educators and families and yet there is no research methodology or research methods book dedicated to this growing field of study Including 27 chapters written by researchers from the UK New Zealand the USA Sweden Iceland Australia and Canada this handbook presents an overview of the field exploring its current debates reflects on its history and offers suggestions for the future of the field This book is an essential reference point for anyone studying or undertaking research into transitions in early childhood

On Knowing Humanity Eloise Meneses, David Bronkema, 2017-07-14 This volume is intended as a critique of anthropology's epistemological and ontological assumptions and a demonstration of the value added by an expanded set of parameters for the field The book's core argument is that whilst ethnographers have allowed their own perspectives to be positively influenced by the perspectives of their informants until recently anthropology has done little in the way of adopting these other viewpoints as critical tools for analysis The book is essential reading for scholars of the anthropology of religion as well as other philosophically oriented social scientists and theologians

Fracking the Neighborhood Jessica Smartt Gullion, 2017-09-08 What happens when natural gas drilling moves into an urban area how communities in North Texas responded to the environmental and health threats of fracking When natural gas drilling moves into an urban or a suburban neighborhood a two hundred foot high drill appears on the other side of a back yard fence and diesel trucks clog a quiet two lane residential street Children seem to be having more than the usual number of nosebleeds There are so many local cases of cancer that the elementary school starts a cancer support group In this book Jessica Smartt Gullion examines what

happens when natural gas extraction by means of hydraulic fracturing or fracking takes place not on wide open rural land but in a densely populated area with homes schools hospitals parks and businesses Gullion focuses on fracking in the Barnett Shale the natural gas rich geological formation under the Dallas Fort Worth metroplex She gives voice to the residents for the most part educated middle class and politically conservative who became reluctant anti drilling activists in response to perceived environmental and health threats posed by fracking Gullion offers an overview of oil and gas development and describes the fossil fuel culture of Texas the process of fracking related health concerns and regulatory issues including the notorious Halliburton loophole She chronicles the experiences of community activists as they fight to be heard and to get the facts about the safety of fracking Touted as a greener alternative and a means to reduce dependence on foreign oil natural gas development is an important part of American energy policy Yet as this book shows it comes at a cost to the local communities who bear the health and environmental burdens *Rethinking Practice, Research and Education* Kevin J.

Flint, 2015-02-26 *Rethinking Practice Research and Education* brings together philosophy with traditional methodological discourse and opens a space for critical thinking in social and educational research Drawing on the work of Heidegger Derrida Foucault and their descendants this engaging critical examination of practice applies a deconstructive reading to the practices of research Where is justice in the practice of research How do paradigms for the production of knowledge shape what is given in the practice of research What are the key issues involved in developing an ethos for the practice of research in the light of society's complex relationship with essential forms of technology Each of these dimensions are explored drawing on the traditions of research and their interplay with researchers responsibilities to work towards justice in research A must read for researchers bringing the language of philosophy to the current debate about the impact of social and educational research in practice *Linguistics and Oral History* Chris Fitzgerald, 2025-08-21 This edited volume brings

together linguistic and oral history practitioners to explore the intersections between both disciplines This book is comprised of contributions from linguists corpus linguists sociolinguists dialectologists and second language acquisition experts to present how they investigate oral history texts from a linguistic perspective as well as contributions from oral history practitioners who focus on language related aspects of their subject In presenting perspectives from both disciplines this book exposes the synergies that exist between oral history and linguistics including methodological parallels in constructing and analysing written transcriptions of spoken events analytical approaches to determining salient themes and linguistic items relevant theoretical perspectives that frame discourse practices in oral histories and the practical considerations facing researchers when investigating large samples of spoken discourse This book shows that oral historians and linguists are often doing the same things in different ways and makes the case for more collaboration between the disciplines to promote exchange of ideas efficiency of practice and reciprocal progression **Research Methods** Nicholas Walliman, 2021-12-30
