**Dive into Close Reading: Strategies for Your 3-5 Classroom** Diane Lapp, Barbara Moss, 2017-05-01 Explore the what why and how of close reading to give students in grades 3-5 the tools they need to be successful. In this must-have guide, teachers will learn the key elements of a close reading lesson as well as strategies for analyzing and selecting a text and how to support students based on their progress and performance. The included lesson template will allow teachers to not only use the provided lessons and texts but also create their own. Correlated to standards, this book includes grade-specific sample close reading lessons and digital copies of teacher and student resources.

**Genre-Based Strategies to Promote Critical Literacy in Grades 4-8** Danielle E. Hartsfield, Sue C. Kimmel, 2019-10-21 Draws on critical and radical change theory to equip both aspiring and practicing library and teacher candidates with practical research-based ideas for enacting critical literacy practices in middle grade libraries and classrooms. *Genre-Based Strategies to Promote Critical Literacy in Grades 4-8* provides strategies and lesson plans with additional resources and tools for school librarians and teachers to engage middle grade students in reading children's literature through a critical literacy lens. To be critically literate readers and thinkers, students must learn to question what they read, asking themselves who wrote the text, why the text was written, and how the text positions its readers and others. Teaching students how to read from a critical literacy stance is a timely and relevant practice in a world in which text is available instantly and on nearly any mobile device. In many cases, preparation programs for school librarians and teachers do not teach candidates how to incorporate critical literacy practices in library and classroom settings. This book provides both pre-service and in-service school librarians and teachers with that professional development and guidance for teaching critical literacy in children's literature courses.

**Digitally Supported Disciplinary Literacy for Diverse K-5 Classrooms** Jamie Colwell, Amy Hutchison, Lindsay Woodward, 2020 This book focuses on how elementary teachers might plan for and incorporate digitally supported disciplinary literacy into English Language Arts, Mathematics, Science, and Social Studies to reach all learners. To do so, the authors present the six-phase Planning Elementary Digitally Supported Literacy (PEDDL) Framework along with four core practices useful for considering elementary disciplinary literacy. After grounding disciplinary literacy in elementary grades, how it might support all learners, and the rationale for its inclusion in K-5 instruction, core practices are presented along with a rationale behind those practices. Then the authors provide an in-depth overview of the PEDDL Framework with examples and research-based underpinnings of each phase. Finally, a paired chapter approach then guides readers through each of the four core disciplines to first overview practices particular to each discipline that are appropriate for elementary grades and then provide detailed lesson planning approaches using the PEDDL Framework for each. Supplementary lesson plan examples are also offered in this book for extended consideration of digitally supported disciplinary literacy across K-5.
