

## SETUP

1

To connect your unit, insert the USB cable through the bottom of the back of it into the socket. Then attach the front by inserting the stand legs into the holes on the underside of the base unit.

2

Connect USB connector to a free USB port on your computer. It will only work for units that require USB to supply sufficient power (USB will not charge the monitor).

Alternatively, the adapter cable included can be used to connect the base unit to a USB monitor. However, if that causes issues or interference problems, see "Troubleshooting" on page 1.

3

The optional AC charger can be used.

## CHARGING

- 1 Hour + automatic sleep
- 10 minutes sleep
- 1 hour + full charge

1. **Stand monitor over charging cable.**

2. Stand power adapter on the monitor to ensure the monitor is in correct position. Red charge indicator light on power unit indicates when charging and will go off completely when fully charged.

**AC charging cable**

When your computer is powered off, the USB cable will not charge and the monitor standby time will decrease. Using the optional AC adapter will allow your monitor to charge.

**USB charging cable**

When your computer is powered on, the USB cable will charge the big USB connector.

## POSITIONING

The **monitor** (monitor) connector is located on the back of the monitor. Connect positioning can vary from left to right.
