The Business of Cyber Peter Fagan, 2024-02-23 This book examines the cybersecurity phenomenon looking at the folklore the hype and the behaviour of its practitioners A central theme is that the management of cybersecurity needs to be owned by the people running the organisation rather than by the cybersecurity team who frequently don't have management as a core skill In order to effect that change managers need to have the background and detail to challenge what they are being told enabling them to engage in a way that will result in more appropriate outcomes for the business This book provides that background and detail It debunks a number of cyber myths and calls out basic errors in the accepted thinking on cyber The content is strongly rooted in available research and presented in an accessible manner with a number of business related case studies Each chapter in the book takes a theme such as end user behaviours and compares the available evidence with what the industry would like to have its customers believe The conclusion is that there is definitely a problem and we certainly need cyber defences Just not the ones the industry is currently selling

Education in a Digital World Neil Selwyn, 2013 Drawing on a wealth of theoretical and empirical work Education in a Digital World tackles a number of pressing questions such as how are global trends in educational technology refracted through national policies and processes How exactly are educational technologies linked to issues of global economics and the fortunes of national and international economies To what extent are digital technologies implicated in the commercialisation marketization and commodification of education These questions and others are addressed throughout eight wide ranging chapters which consider topics such as the national policy strategies of countries across North and South America Europe and East Asia the educational technology portfolios of international organizations such as the United Nations and Microsoft as well as the role of education and technology in international development and the on going efforts to provide one laptop per child across low income regions and countries Through these examples Selwyn develops a detailed analysis of education technology and globalisation drawing together arguments and debates from various academic perspectives Written in a detailed but accessible manner this is an essential book for anyone wishing to gain a better understanding of the role of education and technology in contemporary globalised society
