

GS-2014 (Mathematics)

TATA INSTITUTE OF FUNDAMENTAL RESEARCH

Written Test in MATHEMATICS - December 8, 2013

Duration : Two hours (2 hours)

Name : _____ Ref. Code : _____

Please read all instructions carefully before you attempt the questions.

1. Please fill-in details about name, reference code etc. on the answer sheet. The Answer Sheet is machine-readable. Read the instructions given on the reverse of the answer sheet before you start filling it up. Use only HB pencils to fill-in the answer sheet.
2. There are thirty (30) multiple choice questions divided into two parts. Part I consists of 20 questions and Part II consists of 10 questions. Bachelors students who have applied only for the Integrated Ph.D. program at TIFR CAM, Bangalore will only be evaluated on Part I. All other students (including Bachelors students applying to the Ph.D. programs at both, TIFR, Mumbai and Bangalore) will be evaluated on both Parts I and II.
3. Indicate your ANSWER ON THE ANSWER SHEET by blackening the appropriate circle for each question. Each correct answer will get 1 mark. There is no negative marking for wrong answers. A question not answered will not get you any mark. Do not mark more than one circle for any question : this will be treated as a wrong answer.
4. We advise you to first mark the correct answers on the QUESTION PAPER and then to TRANSFER these to the ANSWER SHEET only when you are sure of your choice.
5. Rough work may be done on blank pages of the question paper. If needed, you may ask for extra rough sheets from an invigilator.
6. Use of calculators is NOT permitted.
7. Do NOT ask for clarifications from the invigilators regarding the questions. They have been instructed not to respond to any such inquiries from candidates. In case a correction/clarification is deemed necessary, the invigilator(s) will announce it publicly.
8. Notation and Conventions used in this test are given on page 1 of the question paper.

Lingenfelter,2023-07-03 How can we fix our schools Improve graduation rates in college What works These are questions that make the headlines and vex policy makers practitioners and educational researchers While they strive to improve society there are frequently gulfs of mutual incomprehension among them Academics longing for more influence may wrongly fault irrationality ideology or ignorance for the failure of research to inform policy and practice more powerfully Policy makers and practitioners may doubt that academics can deliver ideas that will reliably yield desirable results This book bridges the divide It argues that unrealistic expectations lead to both unproductive research and impossible standards for evidence based policy and practice and it offers promising ways for evidence to contribute to improvement It analyzes the utility and limitations of the different research methods that have been applied to policy and practice as well as the strengths and weaknesses of educational reform strategies It explains why using evidence for accountability often makes things worse rather than better Paul Lingenfelter offers educational researchers and policy makers a framework for considering such questions as What problems are important and accessible What methods will be fruitful Which help policy makers and practitioners make choices and learn how to improve What information is relevant What knowledge is valid and useful How can policy makers and practitioners establish a more productive division of labor based on their respective capabilities and limitations He cautions against the illusion that straight forward scientific approaches and data can be successfully applied to society s most complex problems While explaining why no single policy or intervention can solve complex problems he

concludes that determination measurement analysis and adaptation based on evidence in specific situations can lead to significant improvement This positive even handed introduction to the use of research for problem solving concludes by suggesting emerging practices and approaches that can help scholars practitioners and policy leaders become more successful in reaching their fundamental goals
