Sur la philosophie africaine J. Hountondji, 2013-07-26 Many contemporary African writers remain trapped in the quest for a worldview philosophy supposing a single African demesne to explain the entire continent referring to a mythical past Paulin Hountondji shows how these strange conceptual constructions have played a positive role in the resistance led by intellectuals of colonial rule they responded to the negation of the oppression that it comprised of but it was an ambiguous answer especially because it was built on the principles derived from the works of European ethnologists particularly the Pre Tempels Independence opened a new historical period these philosophical elaborations changed direction once an expression of anti colonial resistance they are nowadays an ideology that justifies and reinforces the dominance of the contemporary state the intellectuals who create them are today only the griots of the regimes in place Analysing without complacency the work of Nkrumah of the Cameroonian Towa and of the Rwandan Kagame amongst others Hountondji exposes and denounces this antagonism To him the critical project proposed in this book seems a necessary step on the way to the liberation of theoretical creativity the peoples of Africa and their full participation in the universal intellectual debate

African Philosophy, Second Edition Paulin J. HOUNTONDJI,1996-11-22 Hountondji contends that ideological manifestations of this view that stress the uniqueness of the African experience are protonationalist reactions against colonialism conducted paradoxically in the terms of colonialist discourse Hountondji argues that a genuine African philosophy must assimilate and transcend the theoretical heritage of Western philosophy and must reflect a rigorous process of independent scientific inquiry **Paulin Hountondji and the Science Question in Africa** Zeyad el Nabolsy,2025-07-18 This book offers a systematic reconstruction of Paulin Hountondji s contributions to the debate about the place of modern science on the African continent The book shows that Hountondji develops an account of modern science that is sociologically sensitive to the entanglement between modern science and colonialism on the African continent without falling into epistemic relativism about the claims of modern science It is argued that Hountondji s views on modern science express a strong historical materialist influence and that he develops a theory of science that draws both on the Hessen Grossmann hypothesis and dependency theory Thus this book brings together two strands of historical materialist thought about science that have hitherto been isolated from one another This book is of interest to scholars who specialize in African philosophy history and philosophy of science global philosophy and African studies **Philosophies et cultures africaines à l'heure de l'interculturalité (Tome 1)** Michel Kouam,Christian Mofor,2011-10-01 Cet ouvrage offre une vue de la diversit des recherches et des r flexions actuellement men es au sujet de la philosophie et des cultures africaines et une id e des d bats en cours Il donne en particulier une id e du point o est arriv le d bat sur l existence d une philosophie proprement africaine et sur ce que peut ou doit tre cette philosophie *Actes Du Séminaire Sur la Philosophie Africaine, Addis Abéba, 1-3 Décembre 1976* Claude Sumner,1980 **Conversations Africaines** Collectif (Thinking Africa),2020-03-04 Jean Fran ois Akandji Komb
