Internet Guide to Medical Diets and Nutrition Lillian Brazin, 2024-11-01 Don't waste your time with health and diet Web sites that don't work. The Internet provides unlimited resources that make it easy to learn about various diets, weight loss programs and weight reduction procedures. But with so many sources, which ones can you trust for information that is safe, accurate and up to date? The Internet Guide to Medical Diets and Nutrition saves you time, trouble and effort in your search for Web sites that offer the facts about diet programs and nutrition philosophies that meet your health, medical or religious needs. The Internet Guide to Medical Diets and Nutrition helps you filter out Web sites that offer little if any real help in maintaining special diets that address specific diseases: low protein, high calcium, low gluten, hypoallergenic, diabetes, cancer, anemia, etc. religious or philosophical mandates: Hindu, kosher, vegan, Muslim, macrobiotic, etc. or commercial regimens: Atkins™, Weight Watchers, NutriSystem, etc. or provide answers to questions about bariatric surgery, gastric bypass, stomach stapling, etc. This invaluable reference resource teaches you how to locate Web sites recommended to you, how to evaluate the information you find there, how to research a particular diet or health concern, how to choose and use the right search engine, the significance of domains in Web addresses and how to observe proper etiquette when participating in Internet discussion groups. Topics examined in the Internet Guide to Medical Diets and Nutrition include: general diet and nutrition Web sites, Web calculators, Body Mass Index, exercise, calories, weight maintenance, healthy weight, the nutrient content of foods, food labels, non-surgical weight loss, Web sites, caloric restrictions, hypnosis, weight loss centers and workshops, weight loss surgery, Web sites, Web sites for specific medical conditions, vegetarianism, recipes, online discussion groups and much more. The Internet Guide to Medical Diets and Nutrition also includes a glossary of terms and screen captures of important Web sites. The book is a must-have as an everyday resource for consumers with diet and health interests and concerns and as a reference tool for medical and public libraries.

The Fat Girl's Guide to Life Wendy Shanker, 2009-08-17 Vibrant, vivacious and gorgeous Wendy Shanker is a fat girl who has simply had enough of family, friends, co-workers, women's magazines, even strangers on the street, all trying and failing to make her thin. With her mandate to change the world and the humour and energy to do it, Wendy shows how media madness, corporate greed and even the most well-intentioned loved ones can chip away at a woman's confidence. She invites people of all sizes, shapes and dissatisfactions to trade self-loathing for self-tolerance, celebrity worship for reality, reverence and a carb-free life for a guilt-free Krispy Kreme. Wendy explores dieting, debacles, full-figured fashions and feminist philosophy while guiding you through exercise clubs, doctors' offices, shopping malls and the bedroom. In the process, she will convince you that you can be fit and fat, even as the weight loss industry conspires to make you think otherwise. *The Fat Girl's Guide to Life* invites you to step off the scales and weigh the issues for yourself.

The Eating Disorders A. James Giannini, Andrew E. Slaby, 2012-12-06 As fish must swim, so must man drink and eat. Titus Petronius Arbiter. Examine thy customs of diet. Francis Bacon. For John, eat, drink to drive away Love's pain. But all he

could do he grew thinner thinner Tho he eat drank as much as Ten men for dinner Some said he had a Wolf in his stomach day and night William Blake To paraphrase and cast in contemporary speech observations of the Gothic era monk Bernard of Clairvaux the eating disorders may be viewed as a corruption of the social process a distortion of the body image and a perversion of bodily processes It is this multifactorial etiology that makes the diagnosis and treatment of dietary disorders so difficult and frustrating Because of social demands and a distorted body image men and women have perverted the simple act of eating into always painful sometimes tragic and occasionally deadly outcomes The eating disorders fall into three categories There is obesity the overconsumption of food and its antithesis anorexia the act of voluntary starvation In true Hegelian fashion there follows the synthesis bulimia the voluntary purging of overconsumed amounts of food to produce an anorectic like countenance As the contributing authors emphasize in their chapters these diseases are not unique to contemporary culture Rather they are cultural artifacts created by both men and women since classical antiquity The recognition of these diseases is dependent upon recognizing a disease actually exists that there is a distortion of the eating process
