The six-component universal remote is easy to set, easy to program, and gives you control at the touch of a button.

CODE BOOK

programming information is in the manual and code book in the remote. Please read the

page. The manufacturer's name is already programmed in your new RCR6373, RCR6473, and RCR6473A. Just press the corresponding key, the code, and the TV or video component.

For more information

see the full information booklet included, depending on model.

Insert the batteries

1. Remove the battery compartment cover.
2. Insert the batteries, matching the (+) and (-) marks inside the battery compartment.
3. Push the battery cover back into place.

When you are replacing batteries, try not to press any key after you've taken the old batteries out. Pressing any key while replacing batteries causes the remote to lose the information you've programmed. The code will be in program the next time you use the remote.

Battery Precautions

- Do not mix old and new batteries.
- Do not mix alkaline, standard (non-rechargeable), or rechargeable (nickel-cadmium) batteries.
- Always insert old, used, or worn batteries properly and upside or down of them in accordance with Local and National Regulations.

Battery Saver

Your universal remote control saves battery power by automatically turning off if any key is pressed for more than 60 seconds. This saves your battery life should your remote get stuck in a place where the keys remain depressed, such as between your cushions.

Care and Maintenance

- Keep the remote dry. If it gets wet, wipe it dry immediately.
- Use and store the remote only in normal temperatures.
- Handle the remote gently and carefully. Don't drop it.
- Store the remote away from dust and dirt.
- Wipe the remote with a damp cloth occasionally to keep it looking new.
- Modifying or tampering with the remote's internal components, without authorization and in violation of warranty.
