Private Foundations Bruce R. Hopkins, Jody Blazek, 2004-03-01 Private foundations are a special niche of the nonprofit sector. They are allowed to remain relatively tax exempt in exchange for supporting charitable activities. There are more than 50,000 and growing private foundations in the United States holding assets worth more than 230 billion. Private foundations are subject to a unique and complex set of mostly tax regulations that govern everything from how much money they give away to their investment policies and procedures. This much needed annually updated manual explicates a wide range of tax rules and regulations for these foundations and prepares them for the increasing scrutiny of the IRS. Co-authored by a lawyer and tax accountant, the revised and expanded second edition of this highly respected guide includes practical tax compliance suggestions and in depth legal explanations, line by line instructions, sample filled IRS forms and complete citations. Jewish Giving Jack Wertheimer,2025-07-22 Evaluating Jewish donors over time The American Jewish philanthropic enterprise is unparalleled in scope dynamism and the diversity of funders and the causes they support Yet even as Jewish giving has been largely successful in responding with alacrity to emergencies it has been subjected to severe criticism What once was regarded as a point of pride has become the object of scorn and dismissal with skepticism if not harsh criticism about its work rife both within and outside Jewish communal circles Based on 320 interviews with professionals at Jewish not for profits across the United States principals of foundations and their top staff personnel and also tax filings of major foundations Jewish Giving provides readers with fresh perspectives to evaluate the efforts of Jewish donors large and small

The book traces the evolution of Jewish giving from the colonial era to the present charting the changing profile of those who give to Jewish causes and what funders have aimed to achieve through their largesse. It makes the case that philanthropy serves as a prism through which broader themes in communal life are illuminated. As society or politics change the priorities of charitable giving adjust in response. These changes in targeted funding can help to sharpen our understanding of demographic and social patterns. Devoting much attention to twenty first century developments in contemporary Jewish giving the book pays special attention to the changing landscape of donors who are remaking Jewish philanthropy including women Orthodox Jews Sephardi givers and young funders.
