ECIC2014-Proceedings of the 6th European Conference on Intellectual Capital Dagmar Cagánová, Miloš Čambál, 2014-10-04 **A Financial Crisis Manual** Dimitrios D. Thomakos, Platon Monokroussos, Konstantinos I. Nikolopoulos, 2016-03-31 The recent financial crisis has generated many structural changes within the economy. Many issues are ongoing and the question of how to recover from the crisis and how to avoid another one are continually addressed by scholars and practitioners everywhere. Where there is much discussion within academic and practitioner circles, there is not always adequate interaction between these schools of research. This book provides a thorough overview of the recent financial crisis from the perspective of both industry practitioners and academics specialising in the area. The first part provides practitioner insight on the crisis and explores the causes and effects and of the recession. European public financing, ECB monetary policy and the Euro, the repression of financial markets and financial stability. Part two focuses on the case of Greece as a country still heavily impacted by the crisis which has undergone various unorthodox policies imposed by the IMF, the ECB, the EU. The third part provides insight from researchers and academics covering an array of economic theories and revealing new economic architectures available for the future. With informed views from both financial industry practitioners and academics, this book discusses current issues and implementable solutions for a faster post crisis recovery. **TURKISH ECONOMIC ASSOCIATION INTERNATIONAL CONFERENCE ON ECONOMICS ICE-TEA 2018** Ercan Uygur, Huseyin Karamelikli, 2018-12-31 Playing with Fire Yılmaz Akyüz, 2017 Many emerging and developing economies (EDEs) have liberalised their capital accounts, allowing greater freedom for international lenders and investors to enter their markets. This volume provides an empirical account of deeper integration of EDEs into the global financial system and discusses its implications for stability and growth. *OECD Economic Surveys: Estonia 2015* OECD, 2015-01-28 OECD's 2015 Economic Survey of Estonia examines recent economic developments, prospects and policy. Institute for Capacity Development, 2022-12-12 The 2023 CD Strategy review centers on four themes 1 Enhancing the Strategic and Prioritization Framework 2 Ensuring that the Size Composition and Funding of CD is in Line with the Proposed Framework 3 Modernizing CD Delivery and 4 Assessing the Effectiveness and Impact of CD **How to Pool Risks Across Generations** Michael Otsuka, 2023-05-28 How to Pool Risks across Generations makes the case for the collective provision of pensions on fair terms of social cooperation Through the insurance of a mutual association which extends across society and over multiple generations we share one another's fates by pooling risks across both space and time Resources are transferred not simply between different people but also within the possible future lives of each person from one's more fortunate to one's less fortunate future selves The book opens with an investigation of the longevity and investment risk that even a single individual on a desert island would face in providing for her old age From this atomistic starting point it builds up within and across the chapters to increasingly collective forms of pension provision By joining together it is possible to tame the risks we would face as individuals each with our own private pension pot A collective pension can be justified as a social union of social unions an enduring corporate body which is formed by agreements to pool risks in a manner that involves reciprocity between the various individuals that constitute the collective Even though all individuals age and die a collective pension scheme remains evergreen as the average age of members remains relatively unchanged through the influx of new members to replace those who retire It is therefore possible to smooth risks indefinitely across as well as within generations to the mutual advantage of each **OECD/G20 Base Erosion and Profit Shifting Project Measuring and Monitoring BEPS, Action 11 - 2015 Final Report** OECD, 2015-10-05 Addressing base erosion and profit shifting BEPS is a key priority of governments In 2013 OECD and G20 countries working together on an equal footing adopted a 15 point Action Plan to address BEPS This publication is the final report for Action 11 *The Wellbeing of Nations* Paul Allin, David J. Hand, 2014-07-14 What is national wellbeing and what is progress Why measure these definitions Why are measures beyond economic performance needed and how will they be used How do we measure national wellbeing turn the definitions into observable quantities Where are we now and where to next These questions are asked and answered in this much needed timely book The Wellbeing of Nations provides an accessible and comprehensive overview of the measurement of national well being examining whether national wellbeing is more than the sum of the wellbeing of everyone in the country and identifying and reviewing requirements for new measures It begins with definitions describes how to operationalize those definitions and takes a critical look at the uses to which such measures are to be put The authors examine initiatives from around the world using the UK measuring national wellbeing programme as a case study throughout the book along with case studies drawn from other countries as well as discussion of the position

in some countries not yet drawn into the national wellbeing scene Global Economic Cooperation Rajat Kathuria, Neetika Kaushal Nagpal, 2015-11-23 This book discusses issues such as global financial crisis and global governance food security energy sustainability the global financial system trade and protectionism and growth and employment Since the outbreak of the financial as well as national debt crises in the Euro zone the focus of the G20 has shifted back to addressing short term issues These issues range from the dynamic effects of global imbalances and the appropriate degree of financial sector regulation to questions of austerity versus growth and the lack of a comprehensive framework for managing the international monetary system A further issue is the relevance of the G20 agenda for emerging market economies Global economic recovery still remains fragile and downside risks to global growth remain Additionally much of the agenda of the Seoul Development Consensus for shared growth launched in 2010 has yet to be fulfilled A key discussion point in the book therefore is how to make a tangible and significant difference in peoples lives by implementing an agenda of inclusive growth

On Unemployment Mark R. Reiff, 2015-10-07 With unemployment at historically high rates that show signs of becoming structural there is a pressing need for an in depth exploration of this economic injustice Unemployment is one of the problems most likely to put critical pressure on our political institutions disrupt the social fabric of our way of life and even threaten the continuation of liberalism itself Despite the obvious importance of the problem of unemployment however there has been a curious lack of attention paid to this issue by contemporary non Marxist political philosophers *On Unemployment* explores the moral implications of the problem of unemployment despite the continuing uncertainty involving both its causes and its cures Reiff takes up a series of questions about the nature of unemployment and what justice has to tell us about what we should do if anything to alleviate it The book comprehensively discusses the related theory and suggests how we might implement these more general observations in the real world It addresses the politics of unemployment and the extent to which opposition to some or all of the book s various proposals stem not from empirical disagreements about the best solutions but from more basic moral disagreements about whether the reduction of unemployment is indeed an appropriate moral goal This exciting new text will be essential for scholars and readers across business economics and finance as well as politics philosophy and sociology
