Guinea International Monetary Fund. African Dept.,2016-04-04 This report reviews Guinea s economic performance under the program supported by an Extended Credit Facility ECF arrangement Guinea was declared free of the Ebola epidemic at end 2015 and after two years of stagnant activity growth is expected to rebound this year After solid performance in 2014 ECF program implementation weakened in 2015 Following last October s Presidential elections there has been a concerted effort to bring the ECF supported program back on track Macroeconomic policies for 2016 aim to improve reserves coverage to three months of imports and keep inflation within single digit figures as envisioned in the 2015 ECF supported program The 2016 budget envisions a significant broad based fiscal contraction

Rise of the Far Right Melody Devries,Judith Bessant,Rob Watts,2021-07-29 After decades on the social and political margins far right groups and movements are enjoying increasing success and even claiming a place in mainstream electoral politics in many Western political systems Research shows that new media like Twitter YouTube and community sites likes 4chan and Reddit are increasingly involved with the mobilization of popular support for far right electoral campaigns and even organized political violence These technologies including other social media discussion websites certain online games chat servers talk radio cable news and print media are making contemporary far right ideologies possible in diverse ways altering methods of recruitment to the extent that they become unrecognizable from far

right movements of the past and thus more dangerous The results of these new technological processes can be seen in the increasing normalization of far right values within mainstream culture politics and media ecosystems within countries from the United States Britain Australia Germany and Hungary This book brings together recent academic research exploring how far right groups use new media to recruit followers to extremist beliefs and mobilize political action In doing so the book reveals the complex ways that evolving technologies are used both purposively subtly and in some cases incidentally to recruit and mobilize far right support

Brazil International Monetary Fund. Fiscal Affairs Dept.,2017-05-03 Despite the development of fiscal responsibility legislation several weaknesses in fiscal transparency have had adverse effects on the quality of fiscal policy many of which are being addressed Brazil has made significant progress over recent decades in providing regular information on the budget and its implementation at all levels of government partly driven by the 2000 Fiscal Responsibility Law FRL These include advances in implementing international standards to improve the quality of data At the same time fiscal transparency has been undermined by weaknesses in the fiscal framework and by practices that are inconsistent with the principles of the FRL including unreported liabilities the pedaladas These include incomplete information on policies and their costs or risks accounting changes and lack of clarity on fiscal reporting standards that undermine the effectiveness of the fiscal rules at all levels of government lack of transparency in the relationship between the central government and public banks and between the central government and subnational governments and corruption involving some of the largest public enterprises Since 2015 important efforts have been underway to address some of these weaknesses

When the Seas Rise Heather Dewar,University of Florida,2016-05-18 University of Florida has an ambitious goal to harness the power of its faculty staff students and alumni to solve some of society s most pressing problems and to become a resource for the state of Florida the nation and the world Sea levels are rising around the globe and in Florida with its 1 200 miles of coastline and mostly flat topography this is of particular concern The state depends on coastal cities where 75 percent of the population lives and where more than four fifths of its economic activity takes place When economists tally up the likely costs of rising seas they rank Florida as the most vulnerable state in the nation and Miami as one of the most vulnerable major cities in the world When the Seas Rise takes us on an alarming journey from the dying coastal forests where salt killed tree trunks stand like sentinels of a retreating army to the high tide flooded streets of cities from St Augustine to Key West Meet the scientists at the University of Florida researchers in biology geology entomology horticulture urban and regional planning as well as other fields who along with other experts around the state are planning for the sea change already upon us and the greater changes to come They are working around the clock to predict how global climate shifts will affect the state to protect drinking water and slow the effects of flooding to develop new ways to farm to save our butterflies sea turtles Key deer and other endangered creatures to preserve the state s economy and to help coastal dwellers plan future havens for the people and wildlife of Florida The stories chronicled in GATORBYTES span all colleges

and units across the UF campus They detail the far reaching impact of UF s research technologies and innovations and the UF faculty members dedicated to them Gatorbytes describe how UF is continuing to build on its strengths and extend the reach of its efforts so that it can help even more people in even more places The 37th Annual Conference on Power System and Automation in Chinese Universities (CUS-EPISA) Pingliang Zeng,Xiao-Ping Zhang,Vladimir Terzija,Yi Ding,Yunxia Luo,2023-04-24 This book includes original peer reviewed research papers from the 37th Annual Conference of Power System and Automation in Chinese Universities CUS EPISA held in Hangzhou China on October 23 25 2022 These papers cover topics as Evolution and development path of the power system Resilience assessment analysis and planning of power system Power system planning and reliability Modelling and simulation of novel power system Power electronic for power system stability analysis Power system relay protection and automation and so on The papers included in this proceedings share the latest research results and practical application examples on the methodologies and algorithms in these areas which makes the book a valuable reference for researchers engineers and university students **EU Legal Acts** Marise Cremona,Claire Kilpatrick,2018 This volume explores the changing landscape of the EU s legal acts focusing on the transformations and challenges to the EU s traditional legal acts as well as those acts found at the margin of such traditional EU acts The volume further explains the adaptability of the EU legal order as well as the challenges facing it

Since the elections of 2002 Erdogan s AKP has dominated the political scene in Turkey This period has often been understood
as a break from a secular pattern of state building But in this book Ceren Lord shows how Islamist mobilisation in Turkey has
been facilitated from within the state by institutions established during early nation building Lord thus challenges the
traditional account of Islamist AKP s rise that sees it either as a grassroots reaction to the authoritarian secularism of the
state or as a function of the state s utilisation of religion Tracing struggles within the state Lord also shows how the state s
principal religious authority the Presidency of Religious Affairs Diyanet competed with other state institutions to pursue
Islamisation Through privileging Sunni Muslim access to state resources to the exclusion of others the Diyanet has been a
key actor ensuring persistence and increasing salience of religious markers in political and economic competition creating an
amenable environment for Islamist mobilisation **The Once and Future Worker** Oren Cass,2018-11-13 Cass s core
principle a culture of respect for work of all kinds can help close the gap dividing the two Americas William A Galston The
Brookings Institution The American worker is in crisis Wages have stagnated for more than a generation Reliance on welfare
programs has surged Life expectancy is falling as substance abuse and obesity rates climb These woes are not the inevitable
result of irresistible global and technological forces They are the direct consequence of a decades long economic consensus
that prioritized increasing consumption regardless of the costs to American workers their families and their communities
Donald Trump s rise to the presidency focused attention on the depth of the nation s challenges yet while everyone agrees
something must change the Left s insistence on still more government spending and the Right s faith in still more economic
growth are recipes for repeating the mistakes of the past In this groundbreaking re evaluation of American society economics
and public policy Oren Cass challenges our basic assumptions about what prosperity means and where it comes from to
reveal how we lost our way The good news is that we can still turn things around if the nation s proverbial elites are willing

to put the American worker s interests first Which is more important pristine air quality or well paying jobs that support families Unfettered access to the cheapest labor in the world or renewed investment in the employment of Americans Smoothing the path through college for the best students or ensuring that every student acquires the skills to succeed in the modern economy Cutting taxes expanding the safety net or adding money to low wage paychecks The renewal of work in America demands new answers to these questions If we reinforce their vital role workers supporting strong families and communities can provide the foundation for a thriving self sufficient society that offers opportunity to all **Coastal**
