**Electrical Answers** Manoj Dole, ELECTRICAL ANSWERS is a simple e Book with all about the latest Important Machines Hand Tools Instruments used in Electrical Engineering ITI courses like Electrician Wireman It contains objective questions with underlined bold correct answers Images covering all topics including Electrical Machines Hand Tools Measuring Instrument Machine Tools Accessories and lots more We add new question answers with each new version Please email us in case of any errors omissions This is arguably the largest and best e Book for All engineering multiple choice questions and answers As a student you can use it for your exam prep This e Book is also useful for professors to refresh material

*Electrician Power Distribution MCQ* Manoj Dole, Electrician Power Distribution MCQ is a simple Book for ITI Engineering Course Electrician Power Distribution NSQF Syllabus It contains objective questions with underlined bold correct answers MCQ covering all topics including all about Professional Skill Professional Knowledge and Employability Skills related to job role In addition to this a candidate is entrusted to make do project work and Extra Curricular Activities to build up confidence The practical skills are imparted in simple to complex manner simultaneously theory subject is taught in the same fashion to apply cognitive knowledge while executing task The broad components covered under Professional Skill subject are as below

**FIRST YEAR** The trainee learns about safety and environment use of fire extinguishers practices elementary first aid rescue a person and artificial resuscitation He gets the idea of trade tools its standardization identifies different types of conductors cables their skinning jointing soldering and crimping etc Basic electrical laws like Kirchhoff s law ohm s law laws of resistances and their application in different combinations of electrical circuits are practiced along with laws of magnetism The trainee practices on circuit for single phase and poly phase circuits for 3 wire 4 wire balanced unbalanced loads and working with analog and digital measuring instruments The trainee work with different electronic components circuits and analyze waveforms in CRO The trainee learns about testing and maintenance of batteries and solar cell Wiring practice with installation of different accessories like ICDP switch distribution fuse box and mounting energy meters are practiced as per IE rules and its fault detection is done by trainee Different types of light fitting are to be done like fluorescent tube HP sodium vapour lamp LEDs and their fixtures He learns Practice reading of power and control schematic drawings of motors and starters Operation testing and maintenance of induction motors alternators and synchronous motors are practiced The trainee learns to perform auto tuning and operation of AC drives Learns to repair and installation of inverter stabilizer battery charger and UPS

**SECOND YEAR** The trainee practices on control cabinet wiring and testing of control elements Understands power generation transmission and distribution network He identifies various substation equipment viz isolators over current relays earth fault relay differential relay REF relay lightening arresters Surge counter wave trap Reactor Capacitor bank Circuit breakers ACB SF 6 and VCB etc Practices operation and maintenance of isolators circuit breakers and other equipments used in distribution substations Skill will be gained on transformer for

operation maintenance and functional tests viz open circuit short circuit IR PI induced voltage BDV of transformer oil etc He practices on LT HT cable jointing laying of cables tests and fault finding of underground cables The trainee learns to install test repair and replace Current and Potential transformers used in distribution substations The trainee practices for pipe plate and meshearthng and carries out maintenance of earth system Identifies various conductors ACSR AAC ABC and cable insulation Practices on joining of overhead line conductors erection of poles fitting of accessories and commissioning of distribution line He learns to monitor meter readings reading of MRI reports generating electricity bills using SBM and maintaining log sheetsat substations Practices isolation and switching procedure lock out tag out system settings of relays examine faults in control room and repair substation equipment and panels The Trainee also learns and practices on fire fighting equipment used in substations

**Electrician First Year MCQ** Manoj Dole, Electrician First Year MCQ is a simple Book for ITI Engineering Course Electrician First Year NSQF Syllabus It contains objective questions with underlined bold correct answers MCQ covering all topics including all about safety and environment use of fire extinguishers artificial respiratory resuscitation to begin with He gets the idea of trade tools its standardization identifies different types of conductors cables their skinning joint making Basic electrical laws like Kirchhoff s law ohm s law laws of resistances and their application in different combinations of electrical circuit are practiced along with laws of magnetism The trainee practices on circuit for single phase and poly phase circuits for 3 wire 4 wire balanced unbalanced loads Skilling practice on different types combination of cells for operation and maintenance is being done Wiring practice with installation of different accessories like ICDP switch distribution fuse box and mounting energy meters are practiced as per IE rules for hostel residential building workshop and its fault detection are done by trainee The trainee will practice for pipe plate earthing Different types of light fitting are to be done like HP LP mercury vapour and sodium vapour are prominent The trainee will practice on different types of measuring instruments like multimeter wattmeter energy meter phase sequences meter frequency meter for measurement of electrical parameters in single three phase circuits He will gain skill on range extension calibration and testing of meters Practice for dismantling assembling and testing of heating element equipment induction heating equipment grinding machines and washing machines will be done by trainee Skill will be gained on transformer for operation efficiency series parallel operation replacement of transformer oil and combination of single phase transformers for 3 phase operation The trainee will practice on winding of small transformer and lots more

**Electrician Second Year MCQ** Manoj Dole, Electrician Second Year MCQ is a simple Book for ITI Engineering Course Electrician Second Year NSQ F Syllabus It contains objective questions with underlined bold correct answers MCQ covering all topics including all about electrical rotating machines viz DC machines induction motors alternators MG sets and practice on them The trainee will practice on determining characteristics their performance analysis starting speed control and reversing direction of rotation of machines He will practice on parallel operation synchronization of alternators winding practice and over hauling will be

practiced for DC machine and induction motors diodes for bridge rectifier switching devices amplifiers by electronic components different wave shape generation and testing by CRO Designing control cabinet assembling control elements and their wiring are to be practiced Speed control of AC DC motors by electronic controller will be practiced The trainee will practice on testing analyzing and repairing of voltage stabilizer emergency light battery charger UPS and inverter He will gain knowledge of thermal hydel solar wind energy systems distribution system domestic service line and accessories their protection by practicing on relay and circuit breaker and lots more

**ITI Electrician** Manoj Dole, ITI Electrician is a simple e Book for ITI Electrician JOB Interview Exam It contains objective questions with underlined bold correct answers MCQ covering all topics including all about the latest Important about safety and environment use of fire extinguishers trade tools its standardization identifies different types of conductors cables their skinning joint making Kirchhoff s law ohm s law laws of resistances single phase and poly phase circuits for 3 wire 4 wire balanced unbalanced loads ICDP switch distribution fuse box and mounting energy meters HP LP mercury vapour and sodium vapour light measuring instruments like multimeter
